# Recommended Dental Resource List 2026

## Foreword

This is a revised 2026 list of core book and journal titles recommended for acquisition by the Dental Caucus of the Medical Library Association (MLA) for support of clinical dentistry. Contributors to the 2026 revised list are (in alphabetical order): Sarah Adcock, Rose Fredrick, Thomas Hayes, Jessica Hollister, Laurel Scheinfeld, Hannah Schilperoort, Jennifer Silverman, and Vida Vaughn. This group coordinated with Jennifer Balchunas and Brenna Kate Cox in their 2026 update of the Dental Hygiene Resource List.

This list was first published in 1997 as “A basic list of recommended books and journals for support of clinical dentistry in a non-dental library” (*Bull Med Libr Assoc* 1997;85(3):233-38). Since the original publication, the list has been revised in 2003, 2009, 2017, 2022, and 2026. The list was first amended in 2003 by Frank Mason, John Glueckert and Luis Gonzalez, and again in 2009 by Annie Hughes (now Annie Thompson). Contributors to the 2017 update were: Susan Arnold, Elisa Cortez, Irene Lubker, Richard McGowan, Dorothy Ogdon, Nena Schvaneveldt, Elizabeth Stellrecht, Susan Swogger, Dana Thimons, and Maria Zych. Contributors to the 2022 update were: Susan Arnold, Rachel Becker, Hal Bright, Natalie Clairoux, Bradrick McClam, Lorraine Porcello and Sean Stone. The Dental Caucus is responsible for updating this list regularly.

## MLA Dental Caucus Resource List for Librarians and Libraries Supporting Dental Programs or Services

The following are book titles recommended by dental librarians for a core resource dental collection. This core collection is to support the information and research needs of the oral health care provider (student and practitioner). This collection can be a part of a larger health sciences library, or a part of a separate dental library, or housed in a hospital or departmental library.

It is up to the discretion of the individual library to determine when to weed and assess if a title in the collection still has value, as well as which format of a title is preferred.

The selection criteria are:

- Current English-language title still in-print and available.
- Established, authoritative author(s) and publisher.
- Meets the information and/or research needs on the subject for the oral health care provider (student and practitioner).
- Titles with an asterisk (*) appear in Doody's Core Title 2026 Edition or EBSCO's Dentistry title lists available in GOBI Library Solutions.
- May have been used as a recommended or required textbook for the subject in a teaching environment in the US and/or Canada (recommended criterion but not required).
- In accordance with titles found in the core collection lists, three new subjects were added to the 2026 update: Artificial Intelligence and Digital Dentistry; Medically Complex and Special Needs Dentistry; Sports and Trauma Dentistry.
- Due to their cross-topical nature, some texts may appear under more than one subject.

## Subjects

Anatomy, Histology, and Embryology
Anesthesiology
Artificial Intelligence and Digital Dentistry
Cleft Palate
Communicable Disease Control
Critical Care and Emergencies
Dental Caries
Dental Esthetics
Dental History
Dental Implants
Dental Materials
Dental Practice Management
Dental Public Health
Endodontics
Evidence-Based Dentistry
Forensic Dentistry
Geriatric Dentistry
Medically Complex and Special Needs Dentistry
Mouth Neoplasms
Nutrition
Operative Dentistry
Oral Diagnosis
Oral Medicine
Oral Microbiology
Oral Pathology

Oral Radiology
Oral Surgery
Oral-Systemic Health
Orthodontics
Patient Care Planning
Pediatric Dentistry
Periodontics
Pharmacology and Therapeutics
Prosthodontics
Reference
Sports and Trauma Dentistry
Temporomandibular Joint Diseases
Journals

## Anatomy, Histology, and Embryology

*Agur, A.M.R. & Dalley, A.F (2025). *Grant's atlas of anatomy* (16th ed.). Wolters Kluwer.

## Journals

This is a list of resources that can be used to identify dentistry journals.

## EBSCO's Dentistry & Oral Sciences Source

- **EBSCO's Dentistry & Oral Sciences Source (DOSS)** is a full-text research database for dental practitioners and researchers. It offers top dental and oral sciences journals commonly purchased by health sciences libraries, dental schools, and related institutions.
- DOSS requires a subscription, but the title list of journals is publicly available on EBSCO's Dentistry & Oral Sciences Source product website.

## Other Collated Lists of Dental Journals

- **MEDLINE/PubMed Dental Journal Search Strategy** is a list of dental journal title abbreviations as well as instructions on how to save and maintain a search strategy in the National Library of Medicine's PubMed research database. At the time of writing, the link content was created in 2021 and last reviewed in December of 2025.
- **Wikipedia list of dental journals** provides a concise listing by specialty.
- **Journal Metrics top dentistry journals** allows users to compare journals by the Journal Metrics Score, country, topic fit, and exact journal records.
- **Scholarly Publishing Information Hub** (SPI-Hub) allows users to search journals by topic and includes results weighted by impact metrics.
- **Clarivate Master Journal List** allows users to identify journals indexed on the Web of Science platform without a subscription by limiting to the "Dentistry, Oral Surgery & Medicine" category. Another Clarivate product, Journal Citation Reports (JCR), is a subscription-based annual report that evaluates journals with multiple indicators, including Journal Impact Factors.
- **SCOPUS Sources**: Scopus is a full text research database that requires a subscription but the indexed journals are available by subject on the Scopus Preview Sources page. Use the subject area search field to narrow results to "Dentistry."
