Welcome to MLA '10, the annual meeting of the Medical Library Association. Let's take this time to pause from our hectic professional lives, to reflect on new and innovative ideas, and to connect with colleagues old and new. This annual meeting will provide a diversion into our creative and playful right brains so that we may see our professional work from a whole new angle. The 2010 National Program Committee has been hard at work

planning an extraordinary meeting that focuses on reflections and connections. Our McGovern lecturer, Daniel H. Pink, will show us how we can invigorate our work by calling on our right brain attributes. The lecture will be followed by the first-ever MLA Book Club discussion group. Coming out of that session, we will have a common framework for the meeting that will be carried through the plenary, poster, and paper sessions. And then on

Wednesday, we will come back as a group and reflect on the new ideas presented here so that we can connect them to our work when we return to our libraries. Another first for this annual meeting is the Conference Community (www.mlanet.org/am/am2010/events/conf_comm.html) which will expand and enhance the virtual content of the meeting so that our members who are unable to travel to Washington can participate from their offices or homes. The Conference Community will keep everyone connected to the annual meeting through the MLA '10 blog, a Twitter feed, the MLA YouTube Channel, videos of the plenary and paper sessions, enhanced electronic posters, and the five-minute lightning presentations. While in Washington, take a few colleagues and a little time away from the meeting to visit the many museums, art galleries, monuments, neighborhoods, and restaurants. Let's all enjoy our time together and return home refreshed and invigorated.

—Connie Schardt, AHIP, FMLA, MLA President, 2009/10

“Our McGovern lecturer, Daniel H. Pink, will show us how we can invigorate our work by calling on our right brain attributes.”

The 2010 National Program Committee (NPC) welcomes you to Washington, DC, and MLA '10 as well as to myriad opportunities to interact with friends and colleagues as part of this year's Conference Community.

“Reflect & Connect,”

the theme chosen by the 2010 NPC, gives you an opportunity to look back on the experiences of the previous year, make new connections to people and knowledge, share lessons learned with colleagues, and then find ways to apply these insights to your life at home.

To provide common ground on which to connect, the 2010 NPC selected a book, Daniel H. Pink's *A Whole New Mind: Why Right-Brainers Will Rule the Future*, for you to read and discuss. We hope many of you had time to participate in the survey and comments on MLANET prior to the meeting. Join us at the John P. McGovern Award Lecture, when Pink reflects on why using our right brain is so important and leads us through activities designed to help us connect these concepts to our work. Immediately after the lecture, join the colleagues seated at your table in a discussion of the book and an opportunity to ask Pink for clarification. In July, you will have an opportunity to meet again with your colleagues and Pink, on the web, to further reflect and connect about actions taken as a result of this session or from reading the book. This is the first-ever discussion group open to all of MLA!

Try out another new feature of the meeting by attending the lightning poster presentations. Grouped by topic, presenters will share their posters in five minutes (or less) and be available to answer questions. Attend educational sessions such as the Janet Doe Lecture by Ana D. Cleveland and Sunrise Seminars. Make

new connections at networking events like the Opening of the Hall of Exhibits, Chapter Council Presents Chapter Sharing Roundtables, and Section Shuffle. On Wednesday morning, gather with Sarah McCord, AHIP, at the 2010 NPC's session, “Putting It All Together: Reflecting on MLA '10 and Connecting What You Have Learned with Your Daily Work.”

Further building connections, members of the 2010 NPC have worked with a variety of social media to create a Conference Community that includes participants from both here in Washington, DC, and at home. Everyone who is registered for the meeting, including at-home participants with e-Conference registration, has access to posters; video of the McGovern lecture, plenary sessions, and lightning poster presentations available twenty-four hours after presentation; audio recordings of sessions with electronic presentations (formerly distributed via CD-ROM, now available online two weeks after the meeting); and participation in the July webcast with Pink.

In between making connections at the Welcome Reception and reflecting on the value of the meeting by completing your evaluation form, explore the Washington, DC, area. You have numerous opportunities to connect with your legislators, your colleagues, and your friends as well as reflect on the events of the meeting. The Local Assistance Committee members at the Hospitality Booth are happy to help you find your way.

Check out the program and the Conference Community to locate the best places for you to reflect and connect. We challenge you to both make new connections and to take time for yourself to reflect on all you've seen and experienced.

John P. McGovern Award Lecturer: Daniel H. Pink

“A Whole New Mind”

Sponsored by EBSCO Information Services. Established with a donation from the John P. McGovern Foundation.

[International Ballroom Center and East, Concourse Level](#)

Following the presentation, there will be a book discussion, noon–12:30 p.m.

From 12:30 p.m.–1:30 p.m., there will be an author signing at EBSCO Booth #235.

Books may be purchased Sunday morning in the MLA registration area.

During the McGovern Lecture, Daniel H. Pink will explore with MLA attendees the answers to questions like, “How do I tell my story? What’s my sentence?” Then, on Monday, July 19, he will provide a webcast for us to see how well we have adopted the concepts from his meeting presentation and offer more ideas to help us work better. For more ideas, check out his blog at www.danpink.com.

Pink has been described as having the mind of an entrepreneur and the heart of a storyteller. Using these qualities, he delivers an entertaining and educational presentation that reviews the six essential abilities we need for personal fulfillment and professional success in our ever-changing and challenging work environments. He also takes a look at our motivation.

Pink is the author of four provocative, best-selling books on the changing world of work. In his latest book, *Drive: The Surprising Truth About What Motivates Us*, Pink shows us that the secret to high performance and satisfaction in today’s world is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world.

In *A Whole New Mind: Why Right-Brainers Will Rule the Future* (MLA ‘10’s common book), Pink charts the

rise of right-brain thinking in modern economies and describes the six abilities individuals and organizations must master in an outsourced, automated age. Pink’s *The Adventures of Johnny Bunko: The Last Career Guide You’ll Ever Need* is the first American business book in the Japanese comic format known as manga. His first book, *Free Agent Nation: The Future of Working for Yourself*, was a *Washington Post* best-seller that *Publishers Weekly* says, “has become a cornerstone of employee-management relations.”

Pink’s articles on business and technology appear in many publications, including the *New York Times*, *Harvard Business Review*, *Fast Company*, and *Wired*, where he is a contributing editor. He has provided analysis of business trends on CNN, CNBC, ABC, NPR, and other networks in the United States and abroad. He also lectures to corporations, associations, and universities around the world on economic transformation and the new workplace.

A free agent himself, Pink held his last real job in the White House, where he served from 1995 to 1997 as chief speechwriter to Vice President Al Gore. He also worked as an aide to US Labor Secretary Robert Reich and in other positions in politics and government.

He received a bachelor of arts, with honors, from Northwestern University, where he was elected to Phi Beta Kappa, and a law degree from Yale University Law School. To his lasting joy, he has never practiced law.

Pink lives in Washington, DC, with his wife and their three children.

Monday, May 24, 9:00 a.m.–10:00 a.m.

Janet Doe Lecturer: Ana D. Cleveland

“Miles to Go Before We Sleep: Education, Technology, and the Changing Paradigms in Health Information”

[International Ballroom Center and West, Concourse Level](#)

The Janet Doe Lecturer is chosen for his or her unique perspective on the history or philosophy of medical librarianship. Ana Diviñó Cleveland, regents professor and director, Health Informatics and Houston Programs, Department of Library and Information Sciences, College of Information, University of North Texas–Denton, is an internationally recognized educator in the fields of medical librarianship and health informatics. She has held faculty appointments in the Department of Family Medicine and the School of Public Health, University of North Texas Health Science Center–Denton.

After earning a bachelor's degree in mathematics from the University of Texas–Austin, she attended Case Western Reserve University, where she obtained a master's degree and doctorate in information science with funding from the National Library of Medicine. Her educational experiences at Case Western Reserve University shaped her forward-thinking approach to the profession.

One of the most rewarding aspects of her career has been the education and mentoring of future health information professionals. Cleveland is well regarded for her innovation in curricula development. In 2000, she received the Lucretia W. McClure Excellence in Education Award from MLA, and in 2010, she was given the Award for Teaching Excellence in the Field of Library and Information Science Education by the Association for Library and Information Science Education (ALISE). At the regional level, she was named Librarian of the Year in 2007 by the South Central Chapter.

Cleveland has coauthored two textbooks with Donald Cleveland: *Introduction to Indexing and Abstracting* and most recently, *Health Informatics for Medical Librarians*. Her publications are in the areas of information retrieval, information-seeking behaviors of special populations, and information technology. She has received numerous grants in areas related to health informatics and has served as a consultant, internationally and nationally, to a wide

range of health-related agencies.

An active member of MLA, Cleveland serves as the chair of the Medical Library Education Section, and she previously chaired the Research Section. She also served on the *Journal of the Medical Library Association* Editorial Board, Donald A. B. Lindberg Research Fellowship Jury, and Rittenhouse Award Jury, among others.

She has a strong passion and commitment to developing health communities, and this has led her to appointment to the Texas Radiation Advisory Board.

A native of Cuba, she has been recognized as an outstanding Hispanic role model, and in 2008, she was featured by the newspaper *Al Día* as a leader in the Hispanic community.

Ana D. Cleveland and Donald Cleveland will sign their book, *Health Informatics for Medical Librarians*, winner of this year's Ida and George Eliot Prize, in the Neal-Schuman Publishers Booth #220 on Saturday, May 22, 5:30–6:30 p.m.

Wednesday, May 26, 2:00 p.m.

Joseph Leiter NLM/MLA Lecturer: John D. Halamka

"Knowledge Services and the Role of Medical Libraries in Health Care Information Technology"

 National Library of Medicine (NLM), Lister Hill Auditorium

John D. Halamka will give the 2010 Joseph Leiter NLM/MLA Lecture on Wednesday, May 26, at 2:00 p.m. at the Lister Hill Center Auditorium at the National Library of Medicine (NLM).

Halamka is the chief information officer (CIO) of Beth Israel Deaconess Medical Center and of Harvard University Medical School. As CIO of Beth Israel Deaconess Medical Center, he is responsible for all clinical, financial, administrative, and academic information technology, serving 3,000 doctors, 14,000 employees, and 2 million patients. As CIO of Harvard Medical School, he oversees all educational, research, and administrative computing for 18,000 faculty and 3,000 students. He is also a practicing emergency physician.

In addition, Halamka participates on several state and national committees. He serves as chairman of the New England Healthcare Exchange Network, which oversees clinical and administrative data exchange in Massachusetts. Halamka is the current chair of the US Healthcare Information Technology Standards Panel and co-chair of the Healthcare Information Technology Standards Committee, with the goal of coordinating the process of electronic standards harmonization among stakeholders nationwide.

The lecture will be recorded and broadcast live on the web to MLA members and the National Institutes of Health (NIH) community at www.videocast.nih.gov. A coffee and

tea reception sponsored by the Friends of the National Library of Medicine will follow the lecture at the Lister Hill Center lobby. Special NLM tours will be offered at 3:00 p.m. and 3:30 p.m., starting in the NLM Visitor Center.

The Joseph Leiter NLM/MLA Lecture was established in 1983 to stimulate intellectual liaison between MLA and NLM. Leiter was a major contributor in cancer research at the National Cancer Institute, a leader at NLM as a champion of medical librarians, and an informatics pioneer.

Directions to NLM and details about visiting NLM and the NIH campus are available at www.nlm.nih.gov/psd/ref/guide/rrdirect.html. Visitors enter the NIH campus through the NIH Gateway Center, the central location for registering and orienting visitors, and visitors must provide one form of identification (a government-issued photo ID: driver's license, passport, green card, etc.). The NIH Gateway Center is accessed from NIH Gateway Drive and is near the exit of the Metro system's Medical Center stop. All visitors are encouraged to use Metro or other public transportation if at all possible. Maps are available at the hospitality center.

Academy of Health Information Professionals Question-and-Answer Session

The Academy of Health Information Professionals (AHIP) is MLA's professional development and career recognition program. Plan to attend the Academy Q&A Session on Monday, May 24, 1:30 p.m.–2:30 p.m. in Monroe, Concourse Level, to learn all about the credentialing program and application procedure.

MLA '10 attendees are eligible to earn up to 1 point of academy credit per meeting day, for up to 3 days per year. In addition, the academy recognizes contact hours earned through continuing education courses and symposia.

Americans with Disabilities Act

The Hilton Washington meeting rooms, guest rooms, common areas, and transportation services all comply with the Americans with Disabilities Act. If you need any auxiliary aids and services identified in the Americans with Disabilities Act, please visit the registration area.

Business Center

 Crystal Corridor, Concourse Level

The Hilton Washington offers a business center including photocopying, faxing, and Internet connection. The center features computer workstations and overnight self-service workstations to work on last-minute projects. Please ask for the front desk manager for more information.

Child Care

All guests and children must have badges to attend meetings or events. Complimentary badges are available at the MLA Registration Center. **Please note:** Children under thirteen are not permitted in the exhibit hall. Child care arrangements should be made directly with the provider.

Colleague Connection

If you signed up for Colleague Connection, attend the New Member/First-time Attendees Breakfast, Sunday, May 23, Jefferson, Concourse Level, 7:00 a.m.–9:00 a.m.

Conference Community

In the spirit of this year's theme, "Reflect and Connect," the MLA '10 website features the Conference Community (www.mlanet.org/am/am2010/events/conf_comm.html), an online portal aggregating multiple communication "channels" and "backchannels," providing opportunities for attendees to explore and play with various emerging technologies before, during, and after the meeting. The goal is to enable connections and communication among all attendees, whether in-person or virtual. Some Conference Community services include:

CrowdVine

www.mla10.crowdvine.com
This simple and powerful social network customized for MLA '10 helps participants interact before, during, and after the meeting. Identify those who share common interests so that you can seek one another out and meet, in person, at MLA '10.

Friendfeed

Conference hashtag #mla2010
www.friendfeed.com/mla2010/
FriendFeed pulls together updates from various Conference Community sites, including the blog and Twitter, using the conference hashtag #mla2010. No need to install anything; just go to www.friendfeed.com/mla2010/ to see what people are saying about the meeting.

MLA 2010 Blog

www.npc.mlanet.org/mla10/
The roster of official MLA bloggers will bring you coverage throughout the meeting. This year, the blog is optimized for your mobile phone or PDA.

Even if you can't come to DC, you can still access many of the tools on the Conference Community. The discounted e-Conference (Package D) offers full access to the Conference Community content of streaming video, continuing education, and more! All paid registrants will have full access to the online content on the Conference Community site.

MLA '11

Stop by the MLA '11 booth at the MLA Registration Center to learn about next year's annual meeting in Minneapolis, MN. Members of the 2011 National Program and Local Assistance committees will be on hand to provide information and answer questions.

MLA Connection Booth Hours

Saturday, May 22	11:00 a.m.–7:30 p.m.
Sunday, May 23	8:30 a.m.–5:00 p.m.
Monday, May 24	8:30 a.m.–noon, 1:15 p.m.–5:00 p.m.
Tuesday, May 25	8:30 a.m.–3:00 p.m.

Learn about MLA's newest programs and services, pick up materials, and "shop MLA" to support the grants and scholarships program. MLA staff will be available to answer questions. The booth consists of:

- **Scholarship Booth (MLA Store):** Make a donation to support the MLA grants and scholarships program, and take home a fun gift for a family member, friend, staff member, or yourself! Feel lucky? Be sure to buy a raffle ticket for a chance to win some interesting and unique items. Cash, checks, Visa, MasterCard, American Express, and Discover cards are accepted.
- **MLA Publishing:** Purchase MLA publications at discounted annual meeting rates at the MLA Store.
- **Public Relations Swap 'n' Shop:** The MLA Public Relations Swap 'n' Shop gives attendees the opportunity to share library marketing ideas and samples.

This year Section Council and Chapter Council tables will be located in a special area on the Terrace Level (one floor above the MLA Connection Booth).

- **Section Council:** Pick up membership brochures from MLA Sections. Section Council members will be on hand to answer questions.
- **Chapter Council:** Learn about the thirteen geographic chapters. Check out chapter newsletters, projects, and membership information.

Online Meeting Content

New this year, MLA '10 registrants have online access to plenary sessions, five-minute lightning presentations, and selected section programs. Videos will be posted about twenty-four hours after the session.

Preregistrants have online access to audio recordings of most meeting sessions with visual electronic presentations three weeks after the meeting (this content was previously offered on CD-ROM for an extra charge). Online access enables convenient access to review sessions you attended and hear sessions for the first time. Online access requires paid registration for MLA '10 packages A, B, C, or D. Log in instructions were emailed in April. If you need assistance please contact mlafa@mlahq.org or 312.419.9094 x18.

Technology Showcase

Berkeley Press

 [Georgetown West, Concourse Level](#)

In 2006, the University of Massachusetts Medical School made the research and publications of its researchers, faculty, and students available online using Digital Commons, the world's leading hosted institutional repository platform. In doing so, the medical school brought new life to its scholarship and improved the visibility of its intellectual assets. Since moving to Digital Commons, over 95,000 readers worldwide have accessed this valuable body of medical scholarship.

Come join us to learn how a growing number of schools like the University of Massachusetts, Washington University, Thomas Jefferson University, and others are building a robust living archive of their research. Topics include:

- managing events and conferences
- publishing medical journals and scholarly peer-reviewed journals
- managing and sharing electronic theses and dissertations

Open Forums

Open Forum: Informal Publication Methods

 [Georgetown East, Concourse Level](#)

Many health sciences librarians are blogging, tweeting, Facebooking, and FriendFeeding as a way to share useful professional information. At the same time, peer-reviewed articles in the *Journal of the Medical Library Association (JMLA)* and *Medical Reference Services Quarterly* remain important as examples of scholarship and for professional advancement. This

open forum will discuss connections between informal methods of sharing knowledge and more formal publications. Questions to be covered include:

- Are blog posts ever scholarly? How do they compare to peer-reviewed literature?
- What is the role of peer review in vetting blog posts? Would people be comfortable with peer review in public, as comments on their blog?
- Do the more informal methods make it easier for librarians to participate in the research process or dumb down that process given the lack of guaranteed review?
- Could a “pathway” form from an initial blog post to a short paper in a traditional publication? If so, should the editors of the *JMLA* and other journals scan the biblio-blogsphere for paper ideas?
- How important are society journals such as the *JMLA* going forward, given that they are no longer the only means of distributing thinking in a field?

The forum will include panelists with a range of views on these issues and allow ample time for audience questions and conversation. We look forward to a lively discussion and hope to see you there.

Open Forum: Interviewing Tips and Techniques/Branding

 [Jefferson West, Concourse Level](#)

In “Interviewing Tips and Techniques/Branding,” Sharon Armstrong—a human resources consultant, trainer, and career counselor—will focus on strategies for succeeding in interviews and making it to the final candidate list in a tough job market. The session will also address personal branding—how to present oneself in the best light.

5-Minute Lightning Presentations ◀◀

New lightning presentations are fast-paced talks given by your colleagues. Presenters have just five minutes to make their points. Each session offers twelve presentations, with a twenty-five-minute question and answer session at the end. If the presentations flash by too quickly, MLA '10 registrants can connect with presenters and reflect on the video available via the online Conference Community. Presentation videos will be posted about twenty-four hours after a session.

Parliamentary rules are established to aid organizations in the orderly, expeditious, and equitable accomplishment of business. Because order and good will are essential to working together and achieving common goals, it is essential that association members understand parliamentary procedures. The following overview is a guide to participating in business meetings of the Medical Library Association.

PARLIAMENTARY AUTHORITY

Article XIII of the 2009 revised bylaws of the Medical Library Association provides that rules in the current edition of *Robert's Rules of Order Newly Revised* shall govern the association in all cases where they are applicable and in which they are not inconsistent with the bylaws of the association.

RULES OF THE ASSEMBLY

The following rules govern the conduct of MLA business meetings.

The Floor

When addressing the chair, the person desiring recognition moves to a microphone and gives proper identification, including name and institution, as well as city and state or province. Only MLA members are permitted to speak on the floor of the assembly.

Motions and Resolutions

Main motions (those introducing new business) may be brought to the assembly only if written copies have been distributed at least twenty-four hours before the meeting to each Voting Member present or by unanimous consent of Voting Members present. Resolutions are motions presented formally.

Debate

Debate is limited to two minutes for each speaker; no speaker may have the floor twice on the same question until all who wish to speak have spoken. Members speaking a second time are limited to one minute.

Quorum

A quorum of 250 Voting Members is required for the transaction of business. For purposes of determining a quorum, a person eligible to cast 2 votes is counted as 2 Voting Members.

Voting

To facilitate the counting of votes, voting paddles are provided to all eligible voters attending the annual meeting. Voting paddles are color-coded to distinguish between Institutional and Regular Members. General consent may be used as a method of voting, if there is no objection. Any of the foregoing rules may be suspended by a two-thirds vote.

UNDERSTANDING MOTIONS

Motions are classified according to their purposes and characteristics.

Main Motions

An original main motion brings a new substantive question before the assembly for consideration and action. An incidental main motion relates to other business of the assembly or its past or future action. Incidental main motions include motions to amend something previously adopted and to rescind.

Subsidiary Motions

These motions may alter the main motion and are related to it.

- Lay on the table (a temporary delay)
- Previous question (to stop debate)
- Limit or extend debate
- Postpone to a certain time
- Commit or refer to a committee
- Amend
- Postpone indefinitely (to kill)

Privileged Motions

These motions have no direct connection to the main motion. They are the highest-ranking motions and are designed to take care of emergencies that arise in the assembly.

- Fix the time at which to adjourn—set an adjourned meeting
- Adjourn
- Recess
- Question of privilege
- Call for the orders of the day

Incidental Motions

These motions arise only incidentally out of business before the assembly. Most of these motions are not debatable and are handled as soon as they arise. Some incidental motions are:

- Appeal from the decision of the chair
- Consider seriatim (consideration by paragraph)
- Division of the question
- Parliamentary inquiry
- Point of information
- Point of order
- Suspend the rules
- Withdraw a motion

Motions that Bring a Question before the Assembly Again

- Take from the table
- Reconsider
- Rescind or amend something previously adopted

PRECEDENCE OF MOTIONS

Precedence sets the priority of motions and the order in which they must be proposed and considered. Subsidiary and privileged motions are ranked in this descending order:

- Fix the time at which to adjourn (highest ranking)
- Adjourn
- Recess
- Question of privilege
- Call for the orders of the day
- Lay on the table
- Previous question
- Limit or extend debate
- Postpone to a certain time
- Commit or refer
- Amend
- Postpone indefinitely
- Main motion

Only those motions that are higher in rank than the pending motion are in order and may be made. For example, when the main motion and the motion to commit are pending, only motions of higher rank than "commit" may be made.
