2. Identify the major strengths of this session (check one or more)

34 Demos/Hands-on 38 Networking 44 Creative ideas

53 Information gained 46 Support materials ☐ Other: _____

3. What part of this session was most helpful? Why?

All types are useful to me

Online free books because the library does not have adequate books – 2x

Searching information from relevant website sources and saving them into documents or my email for further use

Journal and publisher because are not very interesting to know and were not familiar to me

Freebookcentre.net

The Internet because we study mostly online

All parts of the session because I need to know about it

All parts because we can use it in research field

All because I am working in a research unit and it is the first time to learn these new things

The most helpful part is to organize all documents we have downloaded from the Internet

I can share these information to my colleagues, students and others who need it. These were trouble in our country so far. Thank for all supporters who conducted this workshop.

The way to do search information because it can help to find useful information

All sessions because they helped me to learn how I can research

Nearly all topics are helpful to my workplace; amazing training session

MY NCBI because it can share something I need to store

All sessions were related to acquiring knowledge

All of this session was very helpful because of all the information and skills I get

Other free collections; Highwire Press

None

For me, it was the conversation and discussion in between the exercises that was most useful
Theretical presentation with slides and explanations because I am most receptive to this format of knowledge sharing

Teamwork because everyone gets involved

Information about Open Access and free content in the field of medicine NCBI.

The practical session was helpful

Learning new information and searching for scientific materials that I can use in my everyday

PUBMED

The PubMed sessions most helpful because we can understand current issues on diseases

PubMed: it will help in getting information for teaching students

Using PubMed because it provides many useful resources

PubMed: it is a new topic in that digital world and helps me gain access to articles

PubMed search and review – because you can search information you need

The parts of the session that were most helpful: 5.1, 5.2, 5.3, 5.4 (PubMed) and Module 2 (searching) – 3x

For me, the most useful part was the session about filters in PubMed & advanced searching and e-book resources

It is a very useful session – on the searching the PubMed database

PubMed, HINARI, NCBI because I will use them in the library

HINARI

module 7 – because of options for free access to books; module 6 – due to evidence based information; and all the rest of the modules as they are helpful in gaining information useful for students

HINARI

All about HINARI because before that I knew nothing about this but now I have got a knowledge to teach students

HINARI because of its content

HINARI because it directs the students to the objective of the session

HINARI

HINARI and Endnote

The HINARI PubMed because I can do all searches in health science and get the full text and for free

HINARI – can make me look, read and download documents

The session help me understand about HINARI. I can search in HINARI and PubMed, Google Books and Google Scholar

Most parts were very useful especially HINARI/PubMed and Endnote

HINARI, free articles

Made us know how to use HINARI because we can't teach more to our students in the library (lots of books and all)

Most parts very useful especially HINARI, PubMed and Endnote

HINARI PubMed

Most helpful because it is very interesting for a librarian who could transfer all the knowledge of HINARI or Endnote to students or someone who wants to prepare a thesis on health research

One of the most helpful parts was getting to know the potential of HINARI and OARE and also the most efficient way to get required information on the web.

The way of using HINARI

Most helpful is to know about HINARI and for what I will use it because I had no practice in that.

PubMed, HINARI, NCBI because I will use them in the library

I learned more about HINARI and how to use it

HINARI accessible material

Access to HINARI and PubMed content through HINARI. It will be useful in my daily work. Also many links to different resources.

General information and HINARI and accessing research on the Internet and practical exercises

ZOTERO

Every part had its own advantages. The most useful part for me was the 3rd part (Zotero, authorship skills)

Zotero – 3x

part on Zotero

Zotero!! It is extremely useful

Learning about Zotero, useful links, exercises

E-BOOKS

E-books because I am a lecturer. I need to search for new documents to teach the students

The session on ebooks and other resources because I can get access to more resources than I have – that I had never known about before

E-books and article about plan to publish

EXERCISES

Doing exercise/hands on. It leads to the real practice. It is very effective and I can remember it better.

Doing exercises; it led to real practice

Exercises – 3x

Hands on sessions were useful

Exercises were very useful, CD

Ditto

4. What part of this session was least helpful? Why?

Not observed

There were no parts of this session that were least helpful. All sessions were helpful.

No one

None

All points are useful

No

None

No part of this session was least helpful

No

No

I hardly to find any least helpful from this session.

All of the sessions were useful and helpful to the trainees

Absolutely yes, I will as soon as to promote HINARI to my colleagues, lecturers, and especially my students nurse. It meet to my university require as now , my students BSNY4 are require to write the Memo. It is very useful for them. Furthermore, I can find any evidence base practice to teach my students and we are together will up to date the knowledge. Thus, our quality of care would improve better and together.

No

No

None

Was not because all part of session is important for researching

Everything was helpful

All of it

None

Everything was very helpful

Everything; every module was helpful

None

Everything was very helpful

None of them

I cannot exclude

None

None

Nothing in particular. I find everything important

I do not think there was any because, in my profession, I can use every piece of information I get

Some search engines that limited the downloads

Sometimes I could not understand because my computer did not have Internet

Using teacher centre; why not student centre (2x)

JAMA because we can't use it (now available)

AGORA because we can't use it

How to use HINARI and searching

No have – 2x

Practice – too little time spent

First part; I wasn't there

Marketing lessons

PubMed filters

Marketing

Theory and some presentations were not very useful

E-book

HINARI Portal

The theory session was least helpful

Google search because all the people know how to search it.

Finish of the session because I did not get the information I needed on EndNote & Mendeley

Endnote because I have used the software before

Full text all sessions – to download or read

Internet connection problem; makes participants feel anxious and less focused

5. Overall, I would mark this session in a scale of 1 to 5 (with 5 being the highest, best, or most, and 1 being the least or worst)

0 - 1 (lowest)	0 - 2	4 - 3 (middle)	20- 4	51 - 5 (highest)
-----------------------	--------------	-----------------------	--------------	-------------------------

6. Could you please give us some additional comments? Was this training useful for your needs? Would you share with us your Plan of Action in the near future? Are you going to promote HINARI or will you become a trainer?

Better to include some hints on how the other R4L programs work and distance learning courses

I will become a trainer of the HINARI because it is to improve a health department or health organization

There is a need for another workshop (and more advanced). The workshop is highly useful and relevant

I will become a trainer to those who want to do research on health

I will continue to be a trainers in HINARI as well all websites used in research

Yes it is useful and I will use it to train/teach colleagues and even student so they can utilize it when conducting research during their studies

It is very useful but the time of training is not sufficient because there are many sections

Yes, I am going to promote and teach about HINARI

Yes, I am going to promote

Useful training for my needs. I will share with you my plan of action in the future. Yes, I will promote HINARI as a trainer

I will promote HINARI and be a trainer

I am going to promote and teach HINARI

This course is very useful to me in my daily work. I will use the material in order to improve my teaching

Good one but time was very limited

I'm really going to promote the HINARI programme and train others

I would like to share the plan of action in the future

After I finish the workshop, I will share the knowledge I have received with the students especially the HINARI website – to strengthen the capacity to search

Endnote, Mendeley;

The session was very useful for me because I gained more information and I can use it more effectively. I will train others in my institution

I think all this is complete but the facilitator should take some time for the participants to have practice

The training was useful for my needs. I will share it to other people and I will promote HINARI

Yes, this training is useful for me. I will promote HINARI to students

Yes, it was really useful for the researcher. I will spread the knowledge to my colleagues

My comment is that it is a very helpful one

It is useful to meet our need and I will share the knowledge to the younger generation

Need another workshop about HINARI because it's very useful. I will promote HINARI to other staffs and students

Yes, very helpful. I will share with my staff in my province and unit

This is quite a good workshop. It is quite useful to me. I have to share this with my colleagues and students. I can become a HINARI trainer at my institution.

If the steps in the exercises were translated to Khmer, it would help some participants who are weak in English

This workshop is very important because it can help to search for new information to use the reference for my students and my organization.

HINARI is good plan for us. This course was useful for me. I will share this plan with my students.

The workshop was very important for me because I can use HINARI search. I can share it with my students.

Training should include pre-test and post-test. Funds for some institutions where HINARI is needed. (2x)
 The training was useful. I will report and brief about HINARI in my organization
 Yes, will share our action plan
 Yes, the training is useful for my needs; I will share it with my colleagues
 Yes, can solve our problem as soon as I can. Yes, it was. Yes, I would, Yes, I am and I will promote HINARI to all students and I will try more to be a trainer
 Translate all these workshops into Khmer; then easy to promote HINARI to everybody
 Use HINARI and share to college students
 You should have the focus and mention in detail on Module 2 (searching) because this module is very important. You should allow the students to read the article of the research (Authorship Skills – how to read a scientific article?) – 2x
 Promote more about HINARI; I'll try to share what I got from you with my peers and students
 I make plan to train our students
 I will promote HINARI and would be glad to share my future plan of action. We will stay in touch.
 Very useful
 Publishing my paper
 Very helpful
 It was useful for me; I will promote HINARI and train others
 Very useful
 I will promote HINARI with all my students
 I will become a HINARI trainer and I will promote HINARI in my institution
 Training is very useful and I will try to transfer the skills to my colleagues
 I am going to promote HINARI at my University
 I am going to promote HINARI to other people
 Yes I will promote INARI and I will become a trainer for the medical faculty
 Yes, it was useful. I will share with my colleagues. I will promote HINARI and maybe become a trainer
 I hope it will be useful for my job. Thank you.
 Definitely will work on promoting HINARI in my organization and to teach others the tools for more efficient use of databases
 Yes, I will share our plan of action in the future and promote both HIARI and OARE
 I will try to promote HINARI
 Yea, very useful. Yes, I will train
 I will definitely promote HINARI
 It was very useful and I am going to promote them further
 The training is very useful and I definitely am going to promote HINARI in my organization
 I am going to try to promote HINARI
 It was very useful. I will share my plan of action and experiences and promote and advocate HINARI and would be very happy to become a trainer.
 Yes it is useful and gives me opportunity to find information I need. I will promote in my institution.
 I will promote HINARI to my colleagues
 Training was useful to me
 I am very satisfied with the training and the opportunity meet and exchange experience with other people in my field of interest. I definitely will promote HINARI in my institution.
 Whether my institution decides to use HINARI or ot, all the information was very useful

7. What other topics would you suggest including in the HINARI training?

Library automation
 Searching of research literature
 Computer training
 Presentation skills
 Topic that deals with poorness situation of people and that they can improve by being hard working
 AGORA
 OARE and AGORA especially for librarians
 Law and development; social sciences
 More e-book resources for HINARI users
 Environment and economics
 the method to write the paper for Export Data
 No – 4x
 For me, that is all but I need to practice more

For me, I think the HINARI training is enough
 Refresh of HINARI training in six month or year
 More about research writing
 Don't know but should be delivery of new citations or programs
 Practice of nursing skills in HINARI (video)
 Pedagogical methods for trainers
 Could not find now
 ICT information (about using computer)
 Don't know
 More EndNote
 More about teaching in nursing school
 Long duration of training
 Literature review and statistics; improve the knowledge of the librarian and train them in training opportunities (HINARI) – 3x
 Access to national medical associations (for example AANS) for approach to useful practical materials.
 Nothing
 Already plenty of it (in this workshop)
 No one
 Ask me in six months
 Thank you Lenny and Karin; it is great presentations
 This training was useful for me and, of course, I will try to promote HINARI to my colleagues and to the director of the institution
 More teamwork exercises so that all the participants get involved and understand the material
 How to share scientific production from my institution (publishing)
 More exercises
 Ditto
 I wish there was more trainings with help of WHO and BiH in the future. Research is not a high priority in our country and this should change
 I think it would be useful to include some information about benefits of using HINARI (cost saving data, amount of information from HINARI).

8. Are you Male **35** Female **41**
 (if you complete this item, it will help us to assess our gender equity in training opportunities)
