Subject: [Excomm] Evaluating and Mentoring possibility for the Research
        Section
Message-ID: <EBE937419CBB7F4FB06BCC2638BB76DD055EC07C@MLBXV09.nih.gov>

Dear Research Executive Board Members,

The MLA Research Task Force is looking into the possibility of having
Research Section members mentor MLA members who apply for MLA grants or
scholarships, especially those who may have been unsuccessful in receiving
one.  In addition, there is a potential role for Research Section members and
their expertise to help with the evaluation of MLA grants and applications.

This email is to get the feel for how the Research Section's Executive Board
members feel about these potential roles for the Research Section.  I would
like to gather your opinions and thoughts to take back to the MLA Research
Task Force in the next couple of weeks.

Thank you in advance for your consideration and thoughts on these roles for
our Section and their impact on us as a Section.

Regards,
Diane

When I first joined the Research Section , there was supposed to be mentoring
available to would-be reseachers, however, when I tried to get some help for
my first project, none of the four people I contacted responded. That said, I
am still in favor of mentoring on all levels. My point is that we need some
mechanism to make sure the mentoring happens when it is asked for.

Greetings Executive Committee,

Could you please review the proposal for the Systematic Reviews SIG to
determine if there is any overlap with other Sections or SIGs?   Please
forward comments to me by February 18, 2014? Thank you very much for your
gracious consideration of this matter.

Best,

Terrie

Subject: [mla-section] ACTION (Past Chairs): Feedback on Systematic Reviews
SIG Proposal

Dear Colleagues,

Attached is a proposal to add a Systematic Reviews SIG. The Section/SIG
Review Committee and I have reviewed the Statement of Purpose and have
determined that all necessary elements are included.

According to the SIG Manual, the next step is for the voting members of
Section Council (Past Chairs) to review the statement with their respective
Section's officers for comments regarding possible overlap between the
proposed SIG and any existing SIG or Section. Comments should be forwarded to
the Chair of the Section/SIG Review Committee, Claire Joseph, Claire.Joseph
at snch.org<mailto:Claire.Joseph at snch.org> by February 20th. If there are
any concerns, Claire will work with the conveners of the proposed SIG to
resolve those.

Have a great day,
Jodi

Hi Diane,?

I've been waiting to weigh in until Susan Lessick, our mentoring chair, had a
chance to respond. ?
I hadn't had a chance to follow up recently with the research mentor-mentee
assignments we made with the section shuffle, though I did end up having some
discussions with Claire Sharifi, who was my person. ?I will re-connect with
them and let you know. ?

I feel like the concrete situation of the grant application deadline makes a
lot of sense. ?Apparently MLA did not have any applicants for the Research
Project/Demonstration grant this year. ?It would be great to have a link on
that grant site saying - contact the Research Section for a mentor or
proposal feedback, and then have a pool of members who are experienced, but
not applying ready to help.

Hope this makes sense....

Kris?

Subject: [mla-section] LAST CHANCE: Chapter/Section Posters @ MLA

Hello all,

MLA 2014 is nearing!? We need to finalize our list of chapters and sections
that will be displaying posters at the conference, as we have limited space.

Attached is the current list of participants that we have based on who
responded to the survey we sent out a few months back.? PLEASE RESPOND by
Friday February 21st.? ONLY those on our list will have space for their
poster.

Please let us know:

-If your chapter or section is not listed and you plan on having a poster

-If your chapter or section is listed as yes but you are no longer planning
on participating

-If your chapter or section is listed as maybe please let us know what has
been decided

-Who is the contact person is for the poster

If we don't hear back from you we will assume the information we have is correct and plan accordingly.

A few details:? The posters for the Chapters and Sections will be located near the registration area and the rooms where the Section programming will be, not with the MLA member posters.? We will advertise that each poster will be "staffed" for questions during Poster Session 1 (Sunday, May 18, 3:30-4:25 PM).? The section and chapter council booth will also be near by.

Further details will be sent out by 2/25/14 once we have a final count.

Thanks,

Melissa Ratajeski and Montie' Dobbins

Hi Diane,

Yes, I think this is one of the areas where the Research Section, i.e., RS mentoring program, can and should provide expertise and mentoring support/coordination. Like a number of other types of research mentoring, this area would benefit from our expertise and mentoring support. I really like this area because it does have a narrow focus with deadlines...it might be a good place to start in our more general efforts (RS & MLA Research Task Force) to enhance research mentoring within RS and across MLA.

I have a couple more thoughts about this...

First relating to the MLA Research Task Force itself: This area should definitely be added to the list of "research expertise" areas on the MLA mentoring website so people can be aware that this type of mentoring is offered...also on our RS website...and also we could have a link on the Research Project/Demonstration grant site (Kris' idea).

Presently the mentor expertise area of "grant writing" appears under 'Administration' on the MLA mentoring website which is confusing. So I have a question for you and everyone. How would this specific mentoring support (MLA grant & application mentoring) differ from "grant writing" mentoring support in general? Does our section want to be involved with "grant writing" mentoring in general or just as it relates to MLA projects/grants? Once we decide on a general or specific approach to providing research grants support, we would need to clarify this with MLA and also on the MLA website.

Just FYI, the MLA Research Task Force is working on updating and creating a new list of 'research mentoring' categories...when the draft of this new updated list of research mentor categories is ready we will be share it with all of you for your comments...Heather Holmes and I

(who currently serve on the MLA Research TF and who are currently
working on this list) will send it to everyone in several weeks.

Finally, we presently have very few research mentors...I did a quick
search on the MLA membership directory for "grant writing" mentors and
there are 23 MLA members who say they would serve as grant mentors but
most are not members of the Research Section. I am not certain whether
these 'mentors' would actually serve as research mentors if asked. If we
move forward on this initiative we would need to identify and recruit
more members (most likely a combination of RS and MLA members) who would
be willing to serve as research mentors for MLA projects & grants. And I
do have several ideas for recruiting/targeting more researchers to serve
as research mentors which would be useful to this process.

Hope these comments are helpful. Sorry for my delayed response.

Dear Research Section Executive Board,

I have already heard from three RS members (2 academic, 1 hospital) that they want to contribute to the poster design, and two of them also volunteered to staff it. I am happy to coordinate their efforts and share draft designs with the board before the final printing. I imagine we need a budget of about $200 for printing and shipping the poster.
I am happy to pay for the printing and mailing and be reimbursed with receipts if that works for everyone.

I would love to get your approval for proceeding with the poster project and to authorize the spending.
Please reply back to the group so that we have it on the record whether you vote to authorize this project.   Thanks for considering it.

Dear Angela, Elisabeth, and Assako,?

Thank you for your interest. ? The main point of the poster is to introduce
the MLA membership to the research section, but of course that does mean our
members' research as well since research section members have won many of the
Research Awards which are a big part of our section's activities. ? I think
we have a lot of leeway to propose ideas/designs to the RS Executive Board.
?I'll check in with them (copied on this message) and get back to you all
later this week.

Thanks again!

Kris

RE: [Research-mla] Interested in helping plan a Research Section poster for
MLA-reply by Wed
Hi sounds like a great idea. just have a question about the poster content:
will it be about the section or research projects by the members or both?

I won't be at MLA but would be happy to contribute some help.

Dear Research Section members,

For the MLA Annual Meeting this year, there is the opportunity for Sections and Chapters to display a poster about the activities of the section to encourage new membership and increase knowledge about our activities.

We have to let them know by Friday, February 21 whether we want to have and staff a poster (see info below).

We want to know what you think, and whether you are interested in helping plan/design the poster (a great way to be involved that doesn't require you to attend MLA).? Also, if you are attending MLA and would be interested in helping staff the poster during Poster Session 1.

You can share your thoughts back with the membership via this discussion list.? If you are interested in helping design the poster, please email me at kmalpi at ncsu.edu<mailto:kmalpi at ncsu.edu> by Wednesday, Feb. 19 to give the executive board time to discuss and get back to everyone.

Thanks for considering it!
Kris Alpi
Past Chair, Research Section

The posters for the Chapters and Sections will be located near the registration area and the rooms where the Section programming will be, not with the MLA member posters.? We will advertise that each poster will be "staffed" for questions during Poster Session 1 (Sunday, May 18, 3:30-4:25 PM).? The section and chapter council booth will also be near by.

Dear Susan and Diane et al,?

Grant writing in the MLA parlance is probably more often about the equipment,
exhibit, and project grants provided by the NN/LMs, etc. which have
justifications and evaluations and budgets, but may not have research
questions, specific aims, etc. ?I think it would be good to break this into
two categories. ?1) Non-research project grant writing ?2) Research grant
writing. ?Some of us will sign up to mentor both, but this way it will be
under Research where it is about research. ?And this sub-section of mentors
is what could be linked from the site. ? Good luck to you and Heather in
coming up with the new lists!

Kris

First relating to the MLA Research Task Force itself:? This area
        should definitely be added to the list of "research expertise"
        areas on the MLA mentoring website so people can be aware that
        this type of mentoring is offered...also on our RS website...and
        also we could have a link on the Research Project/Demonstration
        grant site (Kris' idea).

Presently the mentor expertise area of "grant writing" appears
        under 'Administration' on the MLA mentoring website which is
        confusing.? So I have a question for you and everyone. How would
        this specific mentoring support (MLA grant & application
        mentoring) differ from "grant writing" mentoring support in
        general? Does our section want to be involved with "grant writing"
        mentoring in general or just as it relates to MLA projects/grants?
        Once we decide on a general or specific approach to providing
        research grants support, we would need to clarify this with MLA
        and also on the MLA website.

Just FYI, the MLA Research Task Force is working on updating and
        creating a new list of 'research mentoring' categories...when the
        draft of this new updated list of research mentor categories is
        ready we will be share it with all of you for your
        comments...Heather Holmes and I (who currently serve on the MLA
        Research TF and who are currently working on this list) will send
        it to everyone in several weeks.

Finally, we presently have very few research mentors...I did a
        quick search on the MLA membership directory for "grant writing"
        mentors and there are 23 MLA members who say they would serve as
        grant mentors but most are not members of the Research Section. I
        am not certain whether these 'mentors' would actually serve as
        research mentors if asked. If we move forward on this initiative
        we would need to identify and recruit more members (most likely a
        combination of RS and MLA members) who would be willing to serve
        as research mentors for MLA projects & grants. And I do have

several ideas for recruiting/targeting more researchers to serve
        as research mentors which would be useful to this process.

Hope these comments are helpful. Sorry for my delayed response.

Many thanks to Kris Alpi for leading the effort to nominate the Research
Section for Section of the Year for our work on the MLA Research Agenda, led
by Jonathan Eldredge. Let's consider nominating this again next year.   It
is certainly a significant effort supporting MLA's Research Agenda, and next
year the systematic reviews will be further evidence of the importance of
this project.

On behalf of the Medical Library Association, I would like to thank you for
your recent nomination for the Section Project of the Year Award. MLA
received many excellent nominations and unfortunately, the number of awards
we can support is limited. MLA is unable to present the award to your
Section at this time. I would like to encourage you to nominate a MLA
section again next year. The nomination forms for the MLA grants and awards
program are available at
http://www.mlanet.org/awards/index.html<cid:part1.01050609.04000008 at
mlahq.org> .

Good luck with your continued professional commitment to health information,
and thank you again for your nomination.

Best Regards,

Maria Lopez

Dear Anne,?

Congratulations on your paper acceptance!
While there is nothing budgeted specifically in the Research Section budget
for promoting the systematic review projects, you may certainly ask the
coordinators to request an allocation from the Research Section Executive
Board towards your support to present on this project at the meeting. ? As a
member of the Exec Board, I can suggest that you provide some specifics about
the costs of attending and what dollar amount you are hoping that the Section
can contribute, and the deadline for a response to the organizers.?

I'll admit to being confused about your comment on the absence of support you
will have from your institution to attend the meeting. ?Are you saying that
the only reason you are attending this meeting is to present this paper about
the collaboration, and that neither you or your institution will benefit from
your attendance? ?Most often we assume that presenters were planning to
attend the meeting regardless of whether the proposal got accepted, but the
level of institutional support might vary by whether or not one was
presenting.?

Anyway, I'll stop here and wait to review the funding request that you/the
committee put forward to us.?
Thanks.
Kris?

Subject: Promoting the MLA projects

Dear all,

I submitted a paper to CILIP HLG for their conference in Oxford this July.?
It was for an interactive workshop promoting our project topic, looking at
possible alternative interpretations and a possible best practice template
for dispersed/international team cooperation.

I am delighted to say that the paper was accepted but before I can accept,
please can you let me know if there is any funding available from the ML:A
for promoting the project in this way.? As it wasn't generated from my own
institution's activity, nor from any activity with our own HSLG I don't have
any source of funding.?

Please can you let me know as soon as possible.? I am attaching a copy of the
submission to CILIP.

Thanks very much,
kind regards,
Anne

Hi Merle

I am copying your message to the Executive Board. ?I think you keep sending
your messages to me and not to their list.....
We do not need AV equipment for the Research Judging meeting or the business
meeting that I know of, but Sandy DeGroote (awards) and Terrie Wheeler
(business meeting) should be able to confirm.

You have my vote for breakfast for 15 at the meeting. ?I go half of the
expected attendance.

Kris

Hi Merle,

Thank you very much for making arrangements for the business meeting and the
Awards meeting.

I would like to ask the executive committee if they would like us to pursue
opening up the business meeting to those unable to attend, as we did last
year?   I was not involved in the arrangement to broadcast our meeting
discussion, so I do not know exactly what equipment was needed for that.

So there are a few questions, as follows:

1. Has the membership benefited from opening the business meetings up to
some calling in who were not able to attend in person?
2. Is there a request that we open the business meeting up to those unable
to attend this year?
3. Was last year's experience beneficial enough to bear repeating?
4. If Yes to Q's 1, 2, and 3, what equipment is required to do this?
5. If we line up the equipment, who would like to be responsible for
monitoring it, and ensuring a successful remote connection for our members?

I am not aware of a request to open the business meeting up, but now is the
time to ask.

Thank you, executive committee, for responding to my questions.

Terrie

Message-ID: <1399554808.62062.YahooMailNeo@web120104.mail.ne1.yahoo.com>

Dear Research Section Executive Board,

The volunteer team has done a great job pulling together the poster to
represent our Section at MLA.? Please review the attached poster and send all
copied on this message your feedback by noon EST on Friday.? Sorry for the
short notice, but hopefully you can make the time to do a quick look-through.

Thanks!
Kris

Message-ID: <88ADB35AB1AB3A4590A9948A2675733636384C8F@MLBXV08.nih.gov>

Dear Exec Committee Members,

Please review the proposed agenda for the RS Meeting at MLA. If this looks
fine, no need to comment. If there is an agenda item I have overlooked,
please let me know. If you will not be able to attend MLA, or if you have a
conflict with the RS meeting and need to submit your report in writing,
please let me know you are not able to attend, and send me and Heather Coates
your report in writing.   Heather's e-mail is: hcoates at
iupui.edu<mailto:hcoates at iupui.edu>
We will collect all written reports for mention at the meeting and inclusion
in our minutes.

Thank you!

Hi Executive Committee members,?

Susan Lessick has noted she cannot make our meeting and has sent a report.
?Are there any others that will not be able to attend? ?Please let me know by
noon Tuesday, so I can send out the agenda to the section, and include any
reports such as Susan's. ?Thank you!

 section work
Message-ID: <88ADB35AB1AB3A4590A9948A2675733636388231@MLBXV08.nih.gov>

Research Section Executive Committee,

Marie Ascher would like to request that the section reimburse her for $50.00
for printing a poster that describes the Section's Systematic Review Project
work done by Jonathan Eldredge, Heather Holmes and herself. Her organization
is printing the poster. If you agree, we can ask Marie to bring the receipt
to our business meeting and submit to Heather for reimbursement.

Please advise if you approve. Thank you for your consideration.

Regards,

Terrie Wheeler
