1994 MLA Annual Meeting Donors

Several generous organizations have lent support to this year's annual meeting.

In keeping with San Antonio's Spanish heritage, the list is organized by the sponsor levels "Oro," "Plata," and "Bronze" (pronounced "bronsay")—Spanish for "gold," "silver," and "bronze." "Friends" sponsorship is designated as "Amigos."

Welcome

FROM THE PRESIDENT

June H. Fulton
President

Congratulations on your decision to attend the 1994 Annual Meeting of the Medical Library Association, "Emerging Roles, Enduring Values." Your commitment to furthering your professional development is commendable and has never been more important than in today's challenging environment. I can think of no better way to prepare for the unprecedented changes taking place in the health care system and the information field than to participate in the full range of educational and networking opportunities available at MLA '94.

San Antonio, TX, is an especially appropriate site for this year's meeting. This up-and-coming, fast-growing metropolis that maintains its respect for tradition, native cultures, and Texas charm echoes our profession as it continually strikes a balance between emerging roles and enduring values. As librarians and MLA '94 attendees, we should strive to ensure that our own balancing act eventually proves as seamless, inspired—and as richly spiced—as San Antonio's.

Thank you for joining me at MLA '94. May this annual meeting be as memorable for you as it will be for me.

June H. Fulton, President

FROM THE NPC

Two years ago at MLA '92 in Washington, DC, the 1994 National Program Committee (NPC) began its work in earnest. Adopting the Annual Meeting Task Force's recommendations on structure and scheduling, designed to enhance the educational coherence of the annual meeting experience, allowed us to focus on the conceptual side of the meeting. I credit the task force for their bold recommendations and for imbuing the 1994 NPC with a reformist spirit that made our work all the more interesting!

At our meeting two years ago, the NPC settled on the theme "Emerging Roles, Enduring Values" for MLA '94. We hope you agree that this phrase succinctly conveys one of the more important challenges we face as members of a profession in transition. MLA's sections and other member units, which have planned and organized the concurrent programs, have approached this theme in ways as numerous as themselves. The variety of these excellent offerings enriches us all.

The plenary sessions provide an opportunity to hear clear and respected voices from all corners of our interdisciplinary field—health care, librarianship, information technology, and leadership in a changing world. New roles await us in all of these areas, and it is up to us to apply our professional values in order to make meaningful contributions.

Some of this meeting's innovations include the following: Each full day of the meeting begins with a plenary session. Content programming—plenary and concurrent—is scheduled in the mornings and business programming in the afternoons (except for Monday, which is all content programming). The schedule is uniform from one day to the next and includes a regular midday break with time to relax—a siesta, MLA style. These are only some of the changes being introduced to enhance the coherence and educational value of the meeting for attendees. Please let us know whether this revised format works for you and how it could work better.

On behalf of the many who helped shape MLA '94—members of the NPC, the Local Assistance Committee and its many subcommittees, MLA section and committee programmers, MLA staff, and exhibitors—we enthusiastically welcome you to San Antonio. We hope you find what you came for, and then some!

The Complete Physicians' Desk Reference® Library

Physicians' Desk Reference is the book that library professionals and consumers can turn to for accurate, reliable and up-to-date information on prescription drugs.

One of the most sensitive issues in healthcare today can be summed up in two words: prescription drugs. They not only play a pivotal role in the patient's well-being, but can decidedly affect the professional integrity and security of all those involved as well. It is imperative that your collection be completely up-to-date in this critical area.

Choosing the right software for your library, archive, or information center needn't be complicated. *Just reach for STAR.*

Built-in features. STAR gives you what you need to manage and use MARC and non-MARC databases, *plus* other text databases: variable-length fields and records...validation...full-text and field-specific retrieval...interfaces for experienced and novice searchers...and hundreds of report options.

And STAR is the "search engine" of choice for linking content-based retrieval with associated images — all in a seamless, integrated package.

Up and running, fast. Use our standard applications for libraries and records centers...modify them...or develop your own. You'll have a system tailored to *your* information and *your* procedures.

UNIX-based system. High-performance and multi-user access...using terminals or PCs networked to a RISC or Intel-based host system.

STAR quality. For 10 years, users worldwide have given STAR top marks. You can check it out.

If you're stuck in a maze of choices for your library software, call us at 800/366-1390. We'll be glad to show you the way out.

Journal of Magnetic Resonance Imaging

JMRI is owned by the Society of Magnetic Resonance and published by SMR with the assistance of the Radiological Society of North America. As the premier international clinical organization in magnetic resonance, SMR has taken the lead in providing MR information by assembling for its Journal:

- A distinguished editor and editorial board;
- A peer-review process designed to achieve timely publication of high-quality material;
- High standards for editorial content and MR image reproduction

JMRI addresses:

- major clinical and technical developments in MR imaging

A bimonthly journal devoted to the timely publication of basic and clinical research, educational and review articles, and vital information selected specifically to enhance the diagnostic applications of magnetic resonance.

- new pulse sequences and imaging techniques
- MR angiography, perfusion, and diffusion imaging
- new developments in the clinical application of MR spectroscopy
- major developments in cognitive processes in MR image interpretation
- education and review articles on new developments in MR imaging and MR spectroscopy

Annually, JMRI provides:

- an MResource Guide containing a listing of MR equipment, services and accessory manufacturers by product and a compendium of MR definitions, pulse sequences, and acronyms
- a special issue devoted to a single MR specialty (e.g., May 1994: contrast agents)
- Journal availability in CD ROM format.

General Information

A CASUAL AFFAIR!

Come casual, stay casual, be casual. MLA '94 has been declared a casual affair! (Program presenters are encouraged to wear business attire during their sessions.)

ACADEMY OF HEALTH INFORMATION PROFESSIONALS

MLA members and nonmembers attending the 1994 Annual Meeting are eligible to receive one academy point for each day of meeting attendance, up to three meeting days per year. You may earn additional points by participating in continuing education courses and attending symposia.

Academy Booth— "Credentialing Headquarters"

Members of the Credentialing Committee and the Professional Recognition Review Panel will be eagerly awaiting your questions and comments regarding MLA's Academy of Health Information Professionals. The Academy Booth, displaying brochures, credentialing booklets, and application forms, is located in the Hall of Exhibits, Booth 620.

ACCESSIBILITY

All conference locations are wheelchair accessible. Access maps for the River Walk are available at the Hospitality Center. If you require assistance, please call the MLA Office for information.

CHILD CARE

Child care is available in the San Antonio area through the following organizations: Northside Sitters Club, Phyllis Grisham, 210/341-9313; and YWCA of San Antonio, Ida Givens, 210/690-6378. These organizations are not associated with MLA, and any use of such is strictly by agreement between the provider and the user. MLA disclaims any liability for the use of child care. Check with your hotel concierge for more child care information.

Children who attend MLA programs and exhibits must be accompanied by an adult at all times, and children who can walk must have a badge. Complimentary children's badges are available at the MLA Registration Center.

COLLEAGUE CONNECTION

Meet fellow professionals and network with your peers through Colleague Connection! The Membership Committee's popular program pairs a new member or first-time attendee with a more experienced member. Once assigned, each pair of colleagues sets its own schedule. The deadline for participating was April 15, 1994, but for an "emergency connection" or to help a new colleague, contact Susan Couch at the New Member/First Time Attendee Orientation on Sunday, May 15, 5:00 P.M.—6:00 P.M., in the River Room of the San Antonio Convention Center.

EXHIBITS

The MLA Hall of Exhibits is located in the South Exhibit Hall of the San Antonio Convention Center and will open Sunday, May 15, with a San Antonio—style Welcome Reception from 6:00 P.M. to 8:00 P.M. Meet the vendors that serve the biomedical information community, and take advantage of this unique opportunity to see the latest health sciences books and journals; database services; library equipment and supplies; and state-of-the-art computer software and hardware, including CD-ROM products. Appetizing, reasonably priced lunches will be available on Monday and Tuesday, May 16—17, in the Hall of Exhibits, where annual meeting coffee breaks will also be served. Coffee breaks are made possible by generous contributions from Ballen Booksellers International, Inc.; BRS Information Technologies; CINAHL Information Systems, Inc.; Doody Publishing, Inc.; and Rittenhouse Book Distributors, Inc. The Hall of Exhibits will close on Wednesday, May 18, with a farewell brunch, sponsored by EBSCO Subscription Services.

Hall of Exhibits Hours

Sunday, May 15, 6:00 P.M.—8:00 P.M.
Monday and Tuesday, May 16—17,
10:00 A.M.—5:00 P.M.
Wednesday, May 18, 9:00 A.M.—11:00 A.M.

GUIDE TO LIBRARIES

*Sponsored by Health Oriented
Libraries of San Antonio (HOLSA)*

The Tours and Sightseeing Subcommittee of the MLA '94 Local Assistance Committee has prepared a "Guide to Libraries in San Antonio," which is available at the Hospitality Center. The guide lists San Antonio's health sciences, academic, and special libraries, with the hours, telephone numbers, and a brief description of each library. All the libraries welcome visitors during the annual meeting but encourage you to call ahead. Please stop by the Hospitality Center for directions or more information.

HOSPITALITY CENTER

Make the most of your Texas trip. Stop by the Hospitality Center to collect maps, handouts on local attractions, or a dining companion. Pick up a San Antonio Restaurant Guide, courtesy of EBSCO Subscription Services. Members of the Local Assistance Committee will share their tips on San Antonio shops, eateries, transportation, and more. **Note:** The Hospitality Center will be located in the Marriott Rivercenter on Thursday and Friday, May 12—13, and at the San Antonio Convention Center from Saturday through Wednesday, May 14—18.

Hospitality Center Hours

Thursday, May 12, 4:00 P.M.—8:00 P.M.
Friday, May 13, 4:00 P.M.—6:00 P.M.
Saturday, Sunday, and Monday,
May 14—16, 8:00 A.M.—6:00 P.M.
Tuesday, May 17, 8:00 A.M.—4:00 P.M.
Wednesday, May 18, 8:00 A.M.—NOON

INTERNATIONAL VISITORS

The International Cooperation Section extends a cordial welcome to international visitors and will be pleased to answer any questions regarding the 1994 Annual Meeting. All international visitors are invited to a special orientation session and reception on Sunday, May 15, at 5:00 P.M. in Fiesta A, on the River Level of the San Antonio Convention Center.

LOST AND FOUND

Please return lost-and-found items to the MLA Office (see locations under "MLA Office").

MEMBER RESOURCE ROOM

For your convenience, typewriters, a photocopier, and an IBM-compatible PC with a dot-matrix printer are available for association business in the Member Resource Room. Sign-up sheets for equipment will be available, but you must provide your own diskettes (the PC will accommodate both 5¼" and 3½" floppy disks). The Member Resource Room, shared with the Placement Service, is located in Room 102 of the San Antonio Convention Center and will be open Saturday through Tuesday, May 14–17, 8:30 A.M.–5:30 P.M.; and on Wednesday, May 18, 8:30 A.M.–4:00 P.M.

MESSAGE CENTER

The attendee message center and bulletin boards for all MLA official announcements are located in the MLA registration area.

Note: The Registration Center will be located in the Marriott Rivercenter on Thursday and Friday, May 12–13; it will be located in the San Antonio Convention Center Saturday through Thursday, May 14–19.

MLA BOOTH— "INFORMATION CENTRAL"

The MLA Booth, located in the Hall of Exhibits (Booth 622), is your source for information on MLA programs, services, and products. Member volunteers and headquarters staff will be happy to answer your questions as you browse through MLA brochures, publications, and promotional materials for your library. Pick up free samples and take them home, or take your order to the Registration Center if you're interested in purchasing materials, and we'll have it en route to your library within twenty-four hours!

MLA INTERNET CENTER

Sponsored by Sirsi Corporation and SilverPlatter Information, Inc.

The MLA Internet Center, a service and learning area, provides convenient Internet access for meeting attendees. If you are a first-time or beginning Internet user, stop by the MLA Internet Center in the Hall of Exhibits and find out how networked information can be useful to you.

MLA LEARNING CENTER

Sponsored by Matthews Medical & Scientific Books, Inc.; BIOSIS; and SilverPlatter Information, Inc.

Organized and staffed by members of the Educational Media and Technologies Section, the MLA Learning Center is a microcomputer demonstration area that offers hands-on exposure to recent innovations in online health sciences curricula. Many universities, pharmaceutical companies, and organizations are creating and distributing computerized tutorials to "offload" classroom learning and to make time during lectures to discuss new and relevant discoveries and disciplines. If you've been asked to select or support these types of instructional resources at your institution, visit the MLA Learning Center in the Hall of Exhibits to explore and evaluate these programs by actually using them.

MLA OFFICE

The MLA Office is your resource for any questions you may have about meetings or activities in San Antonio! You may also leave messages for members of the Board of Directors and MLA staff there. **Note:** The MLA Office will be located in Conference Room 5 of the Marriott Rivercenter from Wednesday through Friday, May 11–13. From Saturday through Wednesday, May 14–18, the office will be located in Room 104 of the San Antonio Convention Center.

MLA Office Hours

Wednesday–Saturday, May 11–14,

NEWSLETTER

Sponsored by Alfred Jaeger, Inc., and Readmore, Inc.

¿Que Pasa?, the 1994 Annual Meeting newsletter, will be published Sunday through Wednesday, May 15–18. Submit items for publication at the MLA Office or at the Hospitality Center, no later than 3:00 P.M. on the day before you wish them to appear.

1995 ANNUAL MEETING

The 95th Annual Meeting of the Medical Library Association, "Health Information for the Global Village," will be held in Washington, DC, May 5–10, 1995, at the Washington Hilton and Towers. A call for papers is included with your registration materials. The 1995 National Program Committee invites you to stop by Booths 719 and 721 in the Hall of Exhibits for additional information.

The Seventh International Congress on Medical Librarianship (7ICML)

The 7ICML will immediately follow the 1995 MLA Annual Meeting in Washington, DC, on May 10–12. Although the two meetings are being planned independently, they will share a theme and a joint social event. As the world becomes more of a global village, society will be greatly affected by changes in information transfer. Mark your calendar now to attend both of these important meetings, and visit Booths 719 and 721 in the Hall of Exhibits for additional information.

PLACEMENT SERVICE— "JUMP-START YOUR JOB SEARCH"

Seeking a new job or a change of scenery? Looking for the perfect employee to fill a position? Let MLA's Placement Service help you! The Placement Service provides a meeting place for both job seekers and employers. Located in Room 102 of the San Antonio Convention Center, the Placement Service will be open Saturday through Tuesday, May 14–17, 8:30 A.M.–5:30 P.M.; and Wednesday, May 18, 8:30 A.M.–4:00 P.M. An orientation for Placement Service users will be held on Sunday, May 15, from 8:30 A.M. to 9:00 A.M.

Individual job seekers and employers may submit late applications to the Placement Service through Monday, May 16. Because

Special 20% discount for
MLA members only

Concerned about the high cost of new health sciences books?

See us first.

With the cost of new books marching ever higher and your budget always tightening, you can't afford to buy any inappropriate new titles.

That's where we can help.

For just 13¢ per book, a subscription to **Doody's Health Sciences Book Review Journal** will give you all the objective and authoritative information you need to make informed and accurate collection development decisions.

Doody's Journal comes out bimonthly and all six issues each year are packed with comprehensive reviews of 150 recently published health sciences books and bibliographic overviews of 100 additional titles.

More than 85 publishers send us their books for review. This allows **Doody's Journal** to cover the majority

of new health sciences books in more than 80 different medical and allied health specialties—*some 1500 new books every year, at a cost to you of just 13¢ per title.*

All our reviews are written by qualified medical and allied health professionals. And every book reviewed in

Doody's Journal is less than six months old—most are no older than three months.

Doody's Journal is the best way to evaluate new health sciences books. As one of our subscribers recently told us, "When I first saw your ad I thought I couldn't afford it, but when I got a sample issue, I realized I couldn't afford not to subscribe." Call **Doody Publishing** today at (800) 219-9500 or (708) 386-9500 outside the U.S. for more information about our special 20% discount arrangement for MLA members.

Special Sessions and Events

ACADEMY INFORMATION SESSIONS

Tuesday, May 17

10:00 A.M.—NOON

Fiesta B, Convention Center

Bring your list of credentialing questions—MLA's Credentialing Committee and Professional Recognition Review Panel will help you answer them all. Credentialing Committee Chair Jo Ann Bell will host this session from 10:00 A.M. to 11:00 A.M. Whether you're applying for the first time, advancing to a higher level, or are a grandfathered member who needs to recertify, you won't want to miss this presentation.

If you require more personalized academy assistance, the Professional Recognition Review Panel will hold private consultations following the first session from 11:00 A.M. to noon in Room 209 of the San Antonio Convention Center. Your credentialing is important, so mark this date on your calendar now!

AWARDS LUNCHEON AND CEREMONY

Sponsored by The Faxon Company

Sunday, May 15

NOON—2:00 P.M.

South Banquet Hall, Convention Center

Join friends and colleagues to honor MLA's most deserving professionals. Lunch will be served at noon, and the Awards Ceremony will begin at 1:00 P.M. A ticket to this special event comes with Inclusive Registration. Tickets will also be available at the Registration Center until noon, Saturday, May 14, for \$35.00 each. General seating will be available for anyone who wishes to attend the ceremony but not the luncheon.

CHAPTER SHARING ROUNDTABLES

Monday, May 16

NOON—2:00 P.M.

South Banquet Hall, Convention Center

Meet other chapter members to informally share your experiences and expertise at roundtable discussions and a luncheon. All chapter officers, committee members, and anyone who wants to discover how other chapters handle activities are encouraged to attend. Facilitators and resource people will be available to answer questions.

A box lunch is available for \$15.00, although you are not required to purchase one to participate in the discussion. All participants must register for this event at the MLA Registration Center, indicating their choice of discussion topic. Individual tables will con-

centrate on the following areas of interest: annual meeting planning, bylaws, chairs and incoming chairs, continuing education, finance/incorporation/tax-exempt status, fundraising, governmental relations, honors and awards, newsletters, *Platform for Change*, professional issues, public relations, research, and state groups.

FAREWELL PARTY:

A Night in Old San Antonio

Sponsored by Majors Scientific Books, Inc.

Tuesday, May 17

6:30 P.M.—10:30 P.M.

Maverick Plaza, La Villita

Celebrate a successful MLA '94 with a night under the stars in San Antonio's historic La Villita. "A Night in Old San Antonio," or "NIOA," held during San Antonio's annual Fiesta, commemorates the cultural heritage of the city. The San Antonio Conservation Society will host a mini "Night in Old San Antonio," or "NIOA," especially for MLA. Traditional foods such as chalupas, tamales, fajitas, and buñuelos will be served along with soft drinks, margaritas, wine, and Lone Star beer. Wear cowboy boots or comfortable shoes, because a country-western band will keep your toes tapping while you learn how to do the Cotton-Eyed Joe and other Texas favorites. One ticket comes with Inclusive Registration, and additional tickets will be available at the Registration Center until 4:00 P.M. on Monday, May 16.

FILM FESTIVAL

Tuesday, May 17

1:00 P.M.—4:00 P.M.

Room 204, Convention Center

The Educational Media and Technologies Section's Film Festival will pique your curiosity about health care, your life as a librarian, and the changing face of U.S. culture. The popcorn will be waiting!

Film Schedule

1:00 P.M.—1:50 P.M.

Menopause: Living the Change

2:00 P.M.—2:50 P.M.

*Sexual Harassment in Healthcare:
Relearning the Rules*

3:00 P.M.—3:50 P.M.

*Can't Slow Down:
America's Hurried Life-Style*

FRIENDS OF NLM:

Deep in the Heart of Texas

Monday, May 16

6:00 P.M.—9:00 P.M.

Southwest Craft Center

The Friends of the National Library of Medicine (NLM) invite you to experience another cultural side of Texas. River barges will be waiting outside the Marriott Riverwalk beginning at 5:30 P.M. to transport you to San Antonio's historic and nationally recognized Southwest Craft Center. Explore the center's gothic Chapel, constructed in 1867 by Francois Giraud in wood and limestone. Tickets are available at the MLA Registration Center (\$10.00, Friends of NLM members; \$30.00, nonmembers, includes a one-year Friends membership).

FOOD FOR THOUGHT

Tuesday, May 17

10:30 A.M.—3:30 P.M.

Salon C, Riverwalk

All approved MLA continuing education instructors have been invited to attend the first "Food for Thought" workshop. You'll leave this session with valuable new ideas, skills, and exercises for your next presentation. The workshop will adjourn for a one-hour break between noon and 1:00 P.M.

GOVERNMENTAL RELATIONS UPDATE:

Health Care Reform and Medical Librarians

Tuesday, May 17

2:00 P.M.—4:00 P.M.

Centro D, Convention Center

Join the Governmental Relations Committee and MLA's consultant for an update on health care reform. Find out how medical librarians can play an active role in developing a national health care reform policy. A Governmental Relations Committee update will follow.

INTERNATIONAL VISITORS

ORIENTATION AND RECEPTION

Sunday, May 15

5:00 P.M.—6:00 P.M.

Fiesta A, Convention Center

The International Cooperation Section cordially invites all international visitors to a special orientation session and reception.

LIBRARY SCHOOL REUNION

Monday, May 16

5:30 P.M.—7:30 P.M.

VIP Room, Convention Center

Renew old acquaintances and make new friends as you reminisce and share your career plans at the second annual Library School Reunion. Graduates from individual schools will gather at designated tables, while AWOLS (Alumni Without Library Schools) and international visitors meet in their own special areas. Greet faculty or other representatives from your alma mater, and find out what's new on the education scene. This year's reunion is being planned by the Medical Library Education Section and is sponsored by Scarecrow Press, with assistance from the University of Pittsburgh.

NEW MEMBER/FIRST-TIME ATTENDEE ORIENTATION AND RECEPTION

Sunday, May 15

5:00 P.M.—6:00 P.M.

River Room, Convention Center

MLA's Membership Committee extends a warm welcome to all new members and first-time annual meeting attendees! Because your first meeting can be a bit overwhelming, the Membership Committee encourages you to attend a special reception and orientation.

OPEN FORUM: Research Task Force

Wednesday, May 18

9:00 A.M.—10:30 A.M.

Plaza B, Convention Center

Influence the policy that will shape your profession's future. All members are invited to join the Research Task Force to discuss MLA's research policy statement. Draft copies of the statement are available at the Registration Center.

SPECIAL SECTION EVENTS

Hospital Libraries Tea

Tuesday, May 17

2:00 P.M.—3:30 P.M.

Mission Room, Convention Center

A streamlined business meeting will be held during afternoon tea. Tickets are available for \$15.00 at the MLA Registration Center.

Veterinary Medical Libraries Breakfast

Wednesday, May 18

7:00 A.M.—8:30 A.M.

Centro A, Convention Center

A continental breakfast, sponsored by the Commonwealth Agricultural Bureaux (CAB), will be served prior to the Veterinary Medical Libraries Section's tour of Lackland Airforce Base. CAB will hold a workshop on its new online system later that day from 1:00 P.M. to

5:00 P.M., describing recent changes to the system and how to use it productively and efficiently. Space for the workshop is limited and preregistration is required; please inquire at the Registration Center.

TAKE A WALK!

Tuesday, May 17

6:30 A.M.—7:30 A.M.

What better way to explore San Antonio than on foot in the early morning hours with friends and colleagues? Sponsored by Majors Scientific Books, the walking tour will depart from the lobby of the Marriott Rivercenter.

WELCOME RECEPTION AND

OPENING OF THE HALL OF EXHIBITS

Sponsored by MARCIVE, Inc., and

The Faxon Company

Sunday, May 15

6:00 P.M.—8:00 P.M.

South Exhibit Hall, Convention Center

Strolling mariachis will greet you for the opening of the Hall of Exhibits, which will be transformed with festive, south-of-the-border colors while an accomplished San Antonio chef displays and explains the flavors of this distinctive region. From the treacherous "tequila toast" to "se habla español," enjoy this short presentation and learn the lingo as you tour the exhibits.

It's just a matter of time

1993

For almost half a century, we've been using our R&D staff and the latest technology to meet your serials processing needs. When you needed a fast, easy system for day-to-day serials functions, we developed REMO, the first PC-based serials control system. Then we networked REMO, another industry first.

1992

1977

To help you save time and money in your ordering and claiming, we built the online ROSS system. Then we developed electronic order forms. Electronic invoices. X.12 interfaces for all the major library systems. And, soon, we'll be bringing you BarPro, the bar code technology that will redefine serials control.

ISI. We're redefining access.

INSTITUTE FOR SCIENTIFIC INFORMATION®

The need for current, accurate research information is constant and critical. And the volume of that information continues to grow.

The question is: What good is all that information...without access? Fast, reliable, affordable access. The kind that ISI provides, seamlessly integrated with rapid, full-text document delivery.

Access to information. ISI's unequalled bibliographic databases are just keystrokes away. Whether for a single station, an institution, or even wider distribution; from Current Contents® to the Science Citation Index® to a new series of Specialty Citation Indexes; from diskette to compact disc to magnetic tapes loaded

on your network. We'll help you meet your budgets — and your information needs.

Access to quality. Above all, ISI's databases are a commitment to quality. Whatever format or field you choose to search, you'll find the data relevant and extremely current. You'll also find that we include all footnotes (for cited reference searching), English-language author abstracts, and author addresses. No one provides this much targeted information — in this many ways. Search an ISI database, and your search is complete.

Access to full-text. ISI makes it simple to receive the documents

you need. You can generate orders automatically for articles in our database and fax them right to The Genuine Article®, ISI's document delivery service. We guarantee a 24-hour turnaround and strict copyright compliance.

Access to service. ISI customers are part of a special service network just a phone call away. There's free technical help. And seminars where you learn how to use our products. Plus educational materials, search aids, and more.

ISI. We're not just redefining access. We are access.

The *Journal of Computational Neuroscience* will provide a unique forum for peer-reviewed papers that fit the interface between computational and experimental work in the neurosciences. The *Journal of Computational Neuroscience* will publish full-length original papers describing theoretical and experimental work relevant to computations in the brain and nervous system. Papers that combine theoretical and experimental work are especially encouraged. Primarily theoretical papers should deal with issues of obvious relevance to biological nervous systems. Experimental papers should have implications for the computational function of the nervous system, and may report results using any of a variety of approaches including anatomy, electrophysiology, biophysics, imaging, and molecular biology. Papers that report novel technologies of interest to researchers in computational neuroscience are also welcomed. The *Journal of Computational Neuroscience* is committed to maintaining high-quality reproduction of figures to ensure that excellent anatomical and physiological data can be reproduced fully. It is anticipated that all levels of analysis from cognitive to cellular will be represented in the *Journal of Computational Neuroscience*.

The *Journal of Thrombosis and Thrombolysis* is a long-awaited resource for contemporary cardiologists, hematologists and clinician-scientists actively involved in treatment decisions and clinical investigations of thrombotic disorders involving the cardiovascular and cerebrovascular systems. The principal focus of the *Journal* is on the pathobiology of thrombosis and the use of anticoagulants, platelet antagonists and thrombolytic agents in scientific investigation and patient care.

The *Journal* will publish original work that interlinks basic scientific principles with clinical investigation, thus creating a unique forum for interdisciplinary dialogue. Published works will advocate the development of solid platforms for planned clinical research and precise, clinically-applicable benchwork. The *Journal of Thrombosis and Thrombolysis'* comprehensive and interdisciplinary design will expand the reader's knowledge base and provide important insights for the most rapidly growing field in medicine.

When Columbus went searching for knowledge, he did so without the benefit of modern equipment, an engine, or even an accurate map. Fortunately, today's discoverers in the medical community have *Knowledge Finder*® CD-ROM products from Aries Systems. Exploring medical literature is now fast, accurate (and even fun). End-users learn to search in minutes with our intuitive graphical interface, relevance ranking and powerful search engine. Choose natural language and/or traditional medical subject headings to access MEDLINE®, Health Planning and Administration and other specialty files. So do what Peggy Tahir, Manager of Libraries at California Pacific Medical Center, did. Install our network version, *Knowledge Server*®, on your IBM® PC (or compatible), Macintosh® or mixed network. Carry your clinicians and researchers to a new world-the vast world of medical literature.

"LUNCH AND LEARN" EDUCATIONAL OPPORTUNITIES

CD PLUS Technologies

Plazas A and B, Convention Center

We invite the newest members of our user community, those joining us from BRS, to bring a lunch and find out about a better way to search online databases: CDP Online. CD PLUS Technologies President Mark Nelson will share his vision for the new CDP Online services, with special emphasis on fixed pricing options and future development directions. Refreshments provided.

CINAHL Information Systems

Centro A, Convention Center

This interactive session will introduce the latest developments at CINAHL Information Systems, and the newest enhancements to CINAHL the premier database for nursing and allied health. Complimentary beverages and cookies will be served during the session.

EBSCO Subscription Services

Plazas C and D, Convention Center

EBSCO CASIAS™ is a blend of table-of-contents information and some abstracts for more than 11,000 journals from the British Library's Inside Information table-of-contents services with extensive STM coverage; the ADONIS biomedical database; and EBSCO Publishing's Academic Search and Magazine Search databases. Available in 1994.

MARCIVE, Inc.

Fiesta C, Convention Center

Academic libraries session: concentrating on MARCIVE services for academic libraries, open to all interested librarians. Demonstration of GPO CAT/PAC Plus (CD-ROM), most accurate database for government documents from 1976 to the present. Shows holdings of all depository libraries. Also, MeSH Authorities Processing using the MARCIVE database of authorities records from NLM. Just bring your lunch, and MARCIVE will provide a beverage, apple, and praline.

National Library of Medicine

Fiestas A and B, Convention Center

Postpone your siesta! Join NLM staff as they update you on MEDLARS databases and DOCLINE activities. Plans for new databases, system features, flat-rate programs, and training opportunities are just a few of the topics to be described. As always, your feedback at this session is welcomed and encouraged.

SilverPlatter Information, Inc.

Fiesta D, Convention Center

Introducing The Search Advisor for Windows. SilverPlatter hosts a discussion about our Windows-based Search Advisor retrieval software, designed to increase the success of end-user searching. We will discuss the opportunities that the Search Advisor "authoring tools" present for sharing search expertise through the creation and distribution of customized retrieval interfaces, developed around the specific needs of your user community. All those attending are welcome to become involved in the testing and introduction of this new retrieval capability.

SilverPlatter Information Resources Group

Centro B, Convention Center

SilverPlatter's Information Resources Group is dedicated to making nursing information more accessible. We're developing a line of bibliographic and full-text products tailored to the unique needs of the nursing profession. Access to these products will be provided via our newly created 8,500-term thesaurus. We will describe our products, explain how they were developed, and answer questions.

12:30 P.M.—1:15 P.M., continued

Swets Subscription Service

Centro D, Convention Center

An introduction to SwetScan and SwetDoc. SwetScan involves the electronic scanning and editing of the tables of contents of 14,000 journals. SwetScan is available as a stand-alone service through Internet and in full file or title subset by electronic file transfer. SwetDoc supports document delivery and provides fast access to articles selected. Available now.

ELSEVIER'S

INTERACTIVE ANATOMY

ATLAS OF CONTINUOUS CROSS-SECTIONS ON FULL-MOTION CD-I

Elsevier's Interactive Anatomy is a comprehensive new anatomical reference atlas of cross-sectional photographs on both **CD-I** and **CD-ROM**. This exciting new concept from Elsevier is designed to facilitate reference and education in normal anatomy, providing professionals with a more accessible and stimulating method of study. Anyone can master this amazing electronic atlas in minutes!

The series is divided into 4 volumes, each comprising several discs. The first disc is now available:

Disc 1 of Volume 1: The Head & Neck **PARANASAL SINUSES & ANTERIOR SKULL BASE**

Edited by **B. Hillen, MD, PhD**

ISBN: 0-444-89985-5 \$395.00 (Includes CD-I + CD-ROM + User Guide)

Paranasal Sinuses & Anterior Skull Base is the most complete ENT atlas available in electronic format—no printed medium can offer this amount of information. This first disc presents 11,000 images of normal anatomy and 700 correlative images from CT, MRI and histology, and enables medical professionals—specifically ENT surgeons, radiologists, anatomists, maxillofacial surgeons, ophthalmologists and plastic surgeons—to explore interactively the major structures of the nose, paranasal sinuses, orbit, sella turcica, hypophysis, cavernous sinus, and sphenopalatine fossa. All structures are displayed as

continuous cross-sectional photographs (taken from the same head) in coronal, sagittal and axial directions. These sophisticated, high density images can be displayed as stills or video animation, and can be viewed with or without the names of the structures in *nomina anatomica*. Disc 1 also includes Mallory-stained histological images in coronal direction from the same head.

Paranasal Sinuses & Anterior Skull Base serves as a powerful reference and teaching aid for all physicians, (post)graduates and students, as well as an effective, easy and in-depth method for understanding anatomy.

FEATURES:

- 11,000 high quality photographs of normal anatomy in full colour
- Interactive images displayed in coronal, sagittal and axial directions
- Both video animation and still images
- Continuous anatomical sections spaced only 20 mm apart
- 700 correlative images from CT, MRI and histology
- Names of structures displayed with a click
- Ability to change directions without leaving the exact tissue location
- Easy to operate via on-screen menu
- Identical CD-ROM version gives you the choice of both major standards for Compact Disc media

UNIX

1994'S UNIX RACE WAS OVER IN 1982. WE WON.

Today, there's a race among library automation companies to develop a UNIX[®]-based automation system. A system that's truly open. A system that will support all hardware platforms. One that will network small systems or large ones—two terminals or thousands. A system that's mature in design. That works without bugs. A system that is client/server and offers the user-friendliness of Windows[™]. It's a race to develop a system just like the one our libraries have been using for 12 years.

Parliamentary Procedures

Parliamentary rules are established to aid organizations in the orderly, expeditious, and equitable accomplishment of business. Because order and good will are essential to working together and achieving common goals, it is essential that association members understand parliamentary procedure. The following overview is a guide to participating in business meetings of the Medical Library Association.

PARLIAMENTARY AUTHORITY

Article XIII of the 1994 revised Bylaws of the Medical Library Association provides that rules in the 1990 edition of *Robert's Rules of Order Newly Revised* shall govern the association in all cases where they are applicable and in which they are not inconsistent with the Bylaws of the association.

RULES OF THE ASSEMBLY

The following rules govern the conduct of MLA business meetings.

The Floor

When addressing the chair, the person desiring recognition moves to a microphone and gives proper identification, including name and institution, as well as city and state; only MLA members are permitted to speak on the floor of the assembly.

Motions and Resolutions

Main motions (those introducing new business) may be brought to the assembly only if written copies have been distributed at or before the meeting to each voting member present or by unanimous consent of voting members present. Resolutions are motions presented in formal form.

Debate

Debate is limited to two minutes for each speaker; no speaker may have the floor twice on the same question until all who wish to speak have spoken.

Quorum

A quorum of 250 voting members is required for the transaction of business. For purposes of determining a quorum, a person eligible to cast two votes is counted as two voting members.

Voting

To facilitate the counting of votes, voting paddles are provided to all eligible voters attending the annual meeting. Voting paddles are color-coded to distinguish between institutional and regular members. General consent may be used as a method of voting if there is no objection. Any of the foregoing rules may be suspended by a two-thirds vote.

UNDERSTANDING MOTIONS

Motions are classified according to their purposes and characteristics.

Main Motions

An original main motion brings a new substantive question before the assembly for consideration and action. An incidental main motion relates to other business of the assembly or its past or future action. Incidental main motions include motions to amend something previously adopted and to rescind.

Subsidiary Motions

These may alter the main motion and are related to it.

- Lay on the table (a temporary delay)
- Previous question (to stop debate)
- Limit or extend debate
- Postpone to a certain time
- Commit or refer to a committee
- Amend
- Postpone indefinitely (to kill)

Privileged Motions

These have no direct connection to the main motion. They are the highest ranking motions and are designed to take care of emergencies that arise in the assembly.

- Fix the time at which to adjourn—
set an adjourned meeting
- Adjourn
- Recess
- Question of privilege
- Call for the orders of the day

Incidental Motions

These arise only incidentally out of business before the assembly. Most of these motions are not debatable and are handled as soon as they arise. Some incidental motions are

- Appeal from the decision of the chair
- Consider *seriatim*
(consideration by paragraph)
- Division of the question
- Parliamentary inquiry
- Point of information
- Point of order
- Suspend the rules
- Withdraw a motion

Motions That Bring a Question Again before the Assembly

- Take from the table
- Reconsider
- Rescind or amend something
previously adopted

PRECEDENCE OF MOTIONS

Precedence sets the priority of motions and the order in which they must be proposed and considered. Subsidiary and privileged motions are ranked in this descending order:

- Fix the time at which to adjourn
(highest ranking)
- Adjourn
- Recess
- Question of privilege
- Call for the orders of the day
- Lay on the table
- Previous question
- Limit or extend debate
- Postpone to a certain time
- Commit or refer
- Amend
- Postpone indefinitely
- Main motion

Only those motions that are higher in rank than the pending motion are in order and may be made. For example, when the main motion and the motion to commit are pending, only motions of higher rank than commit may be moved.

FREQUENTLY USED MOTIONS

To approve action:

- Move to accept, adopt, or ratify

To defer action:

- Move to postpone to a definite time, refer to a committee, or lay on the table

To extend debate:

- Move to extend debate

- To introduce business:
 - Make a main motion
- To kill a motion:
 - Move to postpone indefinitely
- To limit debate:
 - Move to limit debate
- To make a request:
 - Rise to a point of information, rise to a parliamentary inquiry, or rise to a question of privilege
- To modify or change:
 - Move to amend by inserting, striking out, or inserting and striking out selected words
- To object to a decision of the chair:
 - Move to appeal
- To reconsider a vote:
 - Move to reconsider (you must have voted on the prevailing side the first time)
- To refer a motion for more study:
 - Move to refer the motion to committee

- To repeal action:
 - Move to rescind
- To suppress a question:
 - Move to postpone indefinitely or object to consideration. Object to consideration may be applied only to original main motions and must be moved before debate begins.

PROCEDURE FOR HANDLING A MAIN MOTION

1. The member goes to the microphone, waits to be recognized by the chair, addresses the chair, gives proper identification, and states the motion, "I move that..." or "I rise to..." If the member stays at the microphone until the chair calls for debate, the maker will be the first member called upon to debate.
2. Another member, without rising, seconds the motion.

3. The chair restates the motion and calls for debate.
4. Members who want to debate the motion go to the microphone, wait to be recognized by the chair, then give the proper identification before beginning to debate.
5. When there is no further debate or debate is closed, the chair will take the vote, announce the vote, and declare what will happen as a result of the vote.

This parliamentary procedure outline is only a beginning guide. Detailed information on motions is found in *Robert's Rules of Order Newly Revised*, 1990 edition. Members are encouraged to ask the parliamentarian for assistance.

Over 3500 medical libraries have discovered a sure cure for an ailing catalog.

Automation fever. Hundreds of medical libraries suffer from it. And hundreds more have already found a fast, effective, and affordable treatment. They called in our top medical authorities. Since 1974, we've specialized in providing superior MARC-based products — from catalog cards and label sets to MARC Record Services via our Cataloging Input System/PROMAIL. We offer MeSH Authorities Processing using our own highly accurate database of authorities records from NLM. Both bibliographic and authorities information can readily be customized to work within any system. And if your current system is *out of sorts*, we can help you migrate to a healthier one. Because of our extensive experience, we also have quick turnaround time—sometimes as fast as 24 hours—and our costs are within most everyone's range.

To find out how we can help your ailing catalog, please stop by Booth #218.

We've been the perfect prescription for over 3500 libraries.

Over 3,600 medical journals in the palm of your hand.

Now you can have an entire medical reference library at your fingertips when you need it. With easy retrieval search functions by title, subject, key words or author, it's simple to access the most up to date information quickly and painlessly with CDs. In fact, it's like having your own reference librarian doing the work for you.

If you don't already have CD-ROM on your system, we offer a one-stop solution with single and multiple drive units, our own OPTI-NET® CD-ROM performance networking software, and the most complete library of medical titles in the industry. And most important, our outstanding technical support comes with everything we sell.

Titles in both standalone and networked versions:

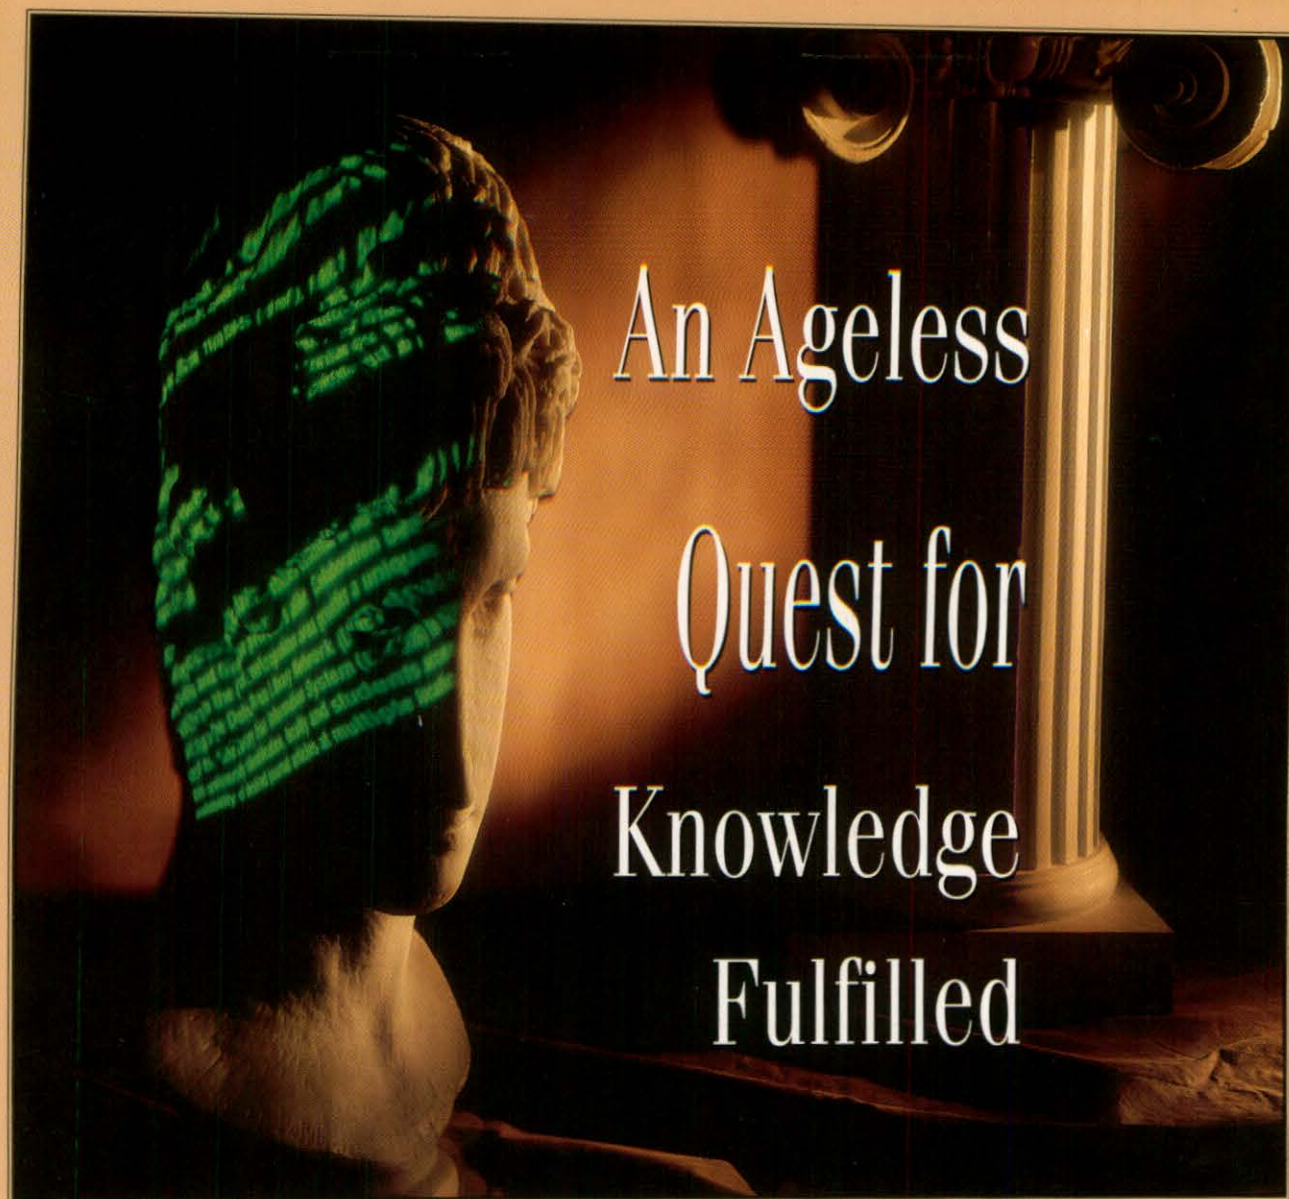

New England Journal of Medicine
Journal of the American Medical Assoc.
Annals of Internal Medicine
The Lancet
British Medical Journal
American Heart Association Library
AIDS Compact Library
Physician's MEDLINE
Cardiology MEDLINE

There is only one time-proven, authoritative resource for access to the nursing and allied health literature. For nearly forty years researchers, educators and librarians have come to rely on the information provided by CINAHL™. Today you can explore CINAHL in several convenient formats for effective and accurate retrieval of information.

The CUMULATIVE INDEX TO NURSING AND ALLIED HEALTH LITERATURE™, available as an annual subscription, features five bimonthly issues and a multi-volume hardbound annual cumulation. It includes the CINAHL *Subject Heading List*. This quality resource has been a library reference tool for decades.

For quick access to more than 170,000 records CINAHL offers the NURSING AND ALLIED HEALTH LITERATURE™ database in popular CD-ROM format and through online services. You'll discover tens of thousands of citations from over 600 regularly indexed journals, and hundreds of books, doctoral dissertations, selected conference proceedings, standards of professional practice, audiovisuals, educational software, and more.

CINAHL's NURSING AND ALLIED HEALTH LITERATURE™ database is available through the popular online vendors BRS, Data-Star, DIALOG, PaperChase and USHealthLink. CINAHL on CD-ROM is available from CD PLUS, EBSCO, and SilverPlatter. All formats are updated monthly.

There are a variety of products which will support your search activities. A special instructional videotape, *See The Cites With CINAHL*, provides an introduction to the print index. The *Subject Heading List*, featuring over 7500 terms (more than 2200 exclusive to CINAHL) is invaluable for developing search strategies. The *Database Search Guide* is a comprehensive reference manual giving detailed instructions for each vendor system, complete with sample searches and quick reference sections. *Mastering the Database Search*, CINAHL's teaching guide, is ideal for individual or class study.

Fulfill your need for nursing and allied health knowledge and information with CINAHL.
