

# AVOID HEALTH MISINFORMATION!

Take the right path: Partner with your health sciences librarian.

I want to publish  
–is this journal  
credible?

How do I make my  
research study  
reproducible?

Where can I find  
accessible patient  
resources in multiple  
languages?

How can I find  
the best clinical  
evidence?

An article I cited  
was retracted–  
now what?
