January 2024

From the Chair

Keydi O'Hagan, MLS, AHIP
Librarian
Jersey College, Teterboro Campus

As the Andy Williams song goes ... "It's the most wonderful time of the year. It's the hap-happiest season of all with those holiday greetings." For some this song rings true. However, for some the opposite, a blue holiday season. MLA has lost some valuable members within the past few years especially N. Bernard "Buzzy" Basch, Naomi Cordero Broering, William Allen Clintworth, Roz Duden, Susan Keesee, Valerie Rankow, Pat Gallagher and my mother Cathy Boss (back in 2019) to name a few. For myself, my father passed away on Christmas Eve 2021 in church just prior to the children's mass. Feelings of melancholy, loneliness and fatigue are normal this time of year as well as the financial stress of the holidays. According to National Alliance on Mental Illness (NAMI)'s website, some tips to overcome the blues include sticking to a normal routine, exercising and finding ways to relax. I would add participating in something one enjoys.

To help overcome my sadness, one of my favorite traditions is looking at the Christmas lights. Nature also provides "holiday lights" – the Aurora Borealis (aka the Northern Lights). This year, my husband and I had the pleasure of seeing the Northern Lights on a cruise to Greenland from Cape Liberty, NJ in September. The first time I saw them, they were hard to see except through my phone. As the ship got closer to Greenland, they became stronger, and I was even able to see them through my eyes. Just like in the major religious faiths – the light from candles and the stars have brought my mood out of the darkness. My wish for all NAHRS members for 2024 is happiness that truly warms your heart, brings a smile to your face, and lights up your life.

Author! Author!	3-4
In Our Toolkit: Zotero ib	5

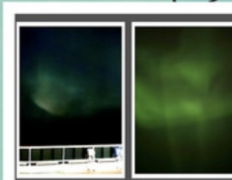

2023 *what a year*

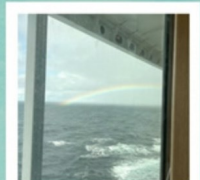

Nuuk, Greenland

Nanortalik, Greenland

Northern Lights

RAINBOW ON WATER

NAHRS Member Spotlight: Sonya Lemke, MLS

NAHRS Member Since: 2019

First Professional Position:

- Medic in the United States Air Force, 1987-1991, Desert Storm Campaign
- First library professional position: Embedded Product Information Librarian, Alcon (Novartis)

Current Position:

Health Sciences Librarian, Arkansas Colleges of Health Education (ACHE), Fort Smith, AR. Liaison to the health sciences programs, Systems Librarian, Access Services Librarian, Technical Services Librarian. ACHE is a private, not-for-profit institution dedicated to educating and training a diverse group of highly competent and compassionate healthcare professionals located in Fort Smith, AR.

Education:

- Bachelor of Science, Business Management - University of Phoenix
- Master of Library Science - University of North Texas
- EdD – in progress – AT Still University

Favorite Podcast: Armchair Expert with Dax Shepherd and Monica Padman

Involvement in MLA or library organizations:

- AHIP—Member
- Attended MLA conferences 2019, 2021, 2022 and 2023
- MLA Jury

Sonya Lemke, MLS

- Credentialing Committee
- Oral History Committee
- History of the Health Sciences Caucus – Chair-Elect
- NAHRS Caucus
- Vision Science Caucus
- SCC/MLA– member
 - Research Committee
 - Fundraising Committee
 - Secretary
 - Nominating Committee

I became a librarian/informationist because:

I was born a librarian. I loved visiting the library as a kid. When thinking about what I wanted to do after years of working in hospitals and clinics, I wanted something that would blend my love of knowledge, books and helping others with my medical experience.

Issues that I see are big for NAHRS members in the profession are:

Bridging the gap between academia and clinical/hospital librarians.

Educating hospital/clinical systems what librarians do and how they are valuable to the organizations.

My bucket list includes:

Vacation in Italy & Slovenia.

My favorite holiday is: Christmas because my mom made it festive for us and I carried that tradition to my own children. Now that I am older, I celebrate differently but I love the decorations, the music, and my faith.

If I could have dinner with 4 people in the world (living or dead): Abraham Lincoln, Hugh Jackman, Jesus Christ, My mom

In my spare time, I like to: read, travel to see family and friends, watch movies, work out when I have the energy, photography, and play card games.

Weirdest question/request I've had as a librarian/informationist: so far has been "Can you find me an agent to publish my book?"

Other item(s) you would like us to know:

I am an amateur genealogist. I descend from both Spanish and English lines with Indigenous Americas mixed in. I like to say I am a mixed salad. I descend from tough, hardworking, strong women with grit.

In our Toolkit - A column for Resources New and Cool

This column highlights useful, cool, or new resources including websites, monographs, OA sources, subscription resources/databases, etc. that NAHRS members find helpful to their work.

Tool: ZoteroBib (zbib.org)

Recommended for: Students or researchers creating quick bibliographies

In a Nutshell: ZoteroBib is a free tool that allows any user to quickly create bibliographies without installing software or creating yet another account. Like other full-featured citation managers, ZoteroBib can format references in over 10,000 citation styles from just the URL, ISBN, DOI, PMID, arXiv ID, or title. Because the bibliography is stored locally through the browser, users can return to their bibliography at any time on their computer (as long as they have cookies enabled). With a click of the *Link to this version* button, the bibliography can be accessed from another computer or shared with collaborators on

zbib.org for at least six months without any personal information attached. ZoteroBib is the perfect, easy tool for anyone who does not want to commit to a citation manager, does not have software installation privileges, or who might want to conduct research in multiple locations.

Column Editor: Elizabeth Moreton, MLS, Clinical Nursing Librarian, University of North Carolina at Chapel Hill.

To recommend a tool for this column, fill out the Google form at <http://bit.ly/NAHRStoolkit>. Tools mentioned in this column will also be added to the NAHRS Resources Wiki. To see the full list of resources, or to offer up your own suggestions via the Wiki, visit <http://bit.ly/NAHRSresources>.
